Prinz Eitel Friedrich, Famous For Her Part In Commerce Destroying

NEEDS REPAIRS AND ENTERS NEWPORT NEWS.

MAY REMAIN 24 HOURS

After Needed Repairs and Must Either Leave Then Or Remain Interned During War—Has 300 Prisoners of War On Board—Eluded Pursuit of All Allied Warships.

[ASSOCIATED PRESS TELEGRAM]

Newport News, Va., March 10.—The German auxiliary cruiser Prinz Eitel Friedrich arrived here today, presumably for coal and supplies. She also is said to be in need of repairs and may intern here. She is reported to have 326 French and Russian prisoners of war aboard.

The Prinz Eitel Friedrich arrived off the Virginia Capes last night, but did not enter Hampton Roads until this morning when she steamed up to Old Point and after complying with quarantine regulations, proceeded to this city, where she dropped anchor shortly before ten o'clock. Much secrecy covered her movements and further than that she was in urgent need of coal and provisions and repairs nothing could be learned as to the cause of her stop. One report which was unconfirmed, has it that the big steamer was chased to the mouth of Chesapeake Bay by a British cruiser.

The Prinz Eitel Friedrich has three eight-inch guns and ten five-inch guns. She carries a crew of 350 men and 13 officers. Where the 326 Russian and French prisoners were taken aboard was not known here. Immediately after the Prinz Eitel Friedrich dropped anchor the coast guard cutter Onondaga went alongside. The captain of the cutter prepared to make a full report to collector of customs Hamilton.

While at sea, the German cruiser has been painted white on one side and black on the other.

Last night, after dark, the German ship appeared off Cape Henry, but did not enter until after daylight, when she passed quarantine and dropped her anchor at this port. All her officers preserved the strictest silence and her captain at once dispatched a message, telling of his arrival and the condition of his ship to the German embassy at Washington.

No sooner had the Prinz Eitel anchored than the United States coast guard ship Onondaga went alongside to take up her watch to preserve the neutrality of the United States until officials at Washington decide what shall be done with the Prinz Eitel Friedrich.

Scarred by the red rust and salt of her months at sea, the German auxiliary was painted white on one side and black on the other. It was reported in marine circles that the Eitel Friedrich had been chased to the three mile limit by a British cruiser. (Continued on Page 9, Col. 5.)

GERMAN REPORT ENEMY'S FORCE WAS DISLODGED

[ASSOCIATED PRESS TELEGRAM]

Berlin, via London, March 10.—German army headquarters today gave out a report dated March 10 on the progress of the war which reads as follows:

"In the western arena:

"The military activity has been restricted generally by snow and cold weather and in the Vosges it had to be almost entirely discontinued. Only in the Champagne region has the fighting continued. At Souain, after protracted fighting at close quarters, the Bavarian troops were victorious. The enemy at certain points, temporarily penetrated our lines. After a determined night engagement, with French reserves, which had been hurried up in support and which were prevented from attacking by our counter attacks, we finally dislodged the enemy from his positions."

"In the eastern arena:

"A renewed attempt on the part of the Russians to advance on Augustow resulted in failure. The fighting to the northwest of Ostrolenko continues. The fighting to the northwest and to the west of Przemysl is assuming an aspect favorable to us and our attack to the northwest of Nowomilasto is progressing."

INTEREST IN HEARING ON GARVER BILL

Throngs of Women Flood Sufferers Camp Out For Good Places

WORE BADGES PROTESTING MEASURE'S PASSAGE.

ITS DEFEAT IS PREDICTED

Strong Arm Methods By Conservancy Interests Are Charged By Advocates of the Measure, and Many Complaints of This Nature Come From Dayton—Legislative News.

[ASSOCIATED PRESS TELEGRAM]

Columbus, March 10.—By a viva voce vote and upon motion of its author, the Garver bill was killed in the senate this afternoon by indefinite postponement. There was no debate. This means that an attempt will be made to pass the companion measure, The Quindick bill in the house. If the Quindick bill should fail an attempt will then be made to introduce an entirely new bill, aimed at repeal of the substantial features of the Vonderheide law.

[ASSOCIATED PRESS TELEGRAM]

Columbus, March 10.—Throngs of women, flood sufferers from the West Side of Columbus, invaded the state house early today and prepared to camp out in the senate chamber until after final action is taken this afternoon on the Garver bill, which seeks to amend the Vonderheide conservancy law. Each woman wore a badge, proclaiming herself against amendment of the present flood protection law. A number brought lunches in paper sacks and boxes, to eat at the noon hour in the senate chamber, so that they would not lose their seats. The demonstration was planned under the direction of Dayton conservancy interests who are opposed to the Garver bill. The measure was a special order of business for two p. m.

Advocates of the Garver bill were on hand, but in less numbers. L. E. McMaken and George Gayser, of Dayton, complained to Senators that "strong arm methods" had been used by the Dayton conservancy organization to intimidate those who signed petitions for the passage of the Garver bill. McMaken declared a committee of prominent Dayton citizens came to his house last night and made violent threats in an effort to induce him not to file with the legislature a petition signed by a number of Dayton citizens, favorable to the Garver bill. He said true expression of the sentiment of Dayton people concerning the Garver bill has been suppressed by the conservancy organization. Merchants have withdrawn credit to signers of petitions urging passage of the amendment measure, he alleged.

Agents for conservancy interests today asserted the bill would be defeated by a large majority. Colonel F. M. Sterrett, of Troy, secretary of the anti-conservancy organization of the Upper Miami valley said:

"We have a good chance to pass the bill." Senator Gilmore, of Preble (Continued on Page 10, Col. 5.)

FRENCH REPORT PROGRESS MADE WAS IMPORTANT

[ASSOCIATED PRESS TELEGRAM]

Paris, via London, March 10.—The report from the war office this afternoon is as follows:

"North of Arras, in the region of Notre Dame De Lorette, the night was quiet and the situation is unchanged."

"The importance of our progress yesterday in Champagne is confirmed. A violent German counter attack made on Ridge No. 196 was vigorously repulsed, and we gained a little ground along the road from Fertites to Taurin. On the hill northeast of Mesnil, our infantry, after having carried the German works mentioned in the last communication, reached a hill beyond."

"In the Argonne, at Fontaine Madame, we demolished a blockhouse and pushed our trenches 800 metres forward. Between Four De Paris and Bollente, the enemy, attacking at 4 p. m., took from us trenches we had captured in the morning. However, a fresh attack gave us possession of them once more. The enemy then attacked again and according to the latest information, the fighting continues."

Many a man is never lacking in spirits even though he may have to carry a pocket flask.

Bank Was Closed For Political Purposes By Lattanner, Is Testimony

[ASSOCIATED PRESS TELEGRAM]

Columbus, March 10.—Timothy T. Ansberry, of Defiance, newly appointed judge of the Third district court of appeals, former congressman, went on the witness stand before the Winans legislative committee investigating the banking department today and declared he was the political victim of the closing of the Putnam county bank of Ottawa, by former Superintendent E. W. Lattanner.

The bank was owned principally by N. E. Matthews, who defeated Ansberry for re-election to congress last fall. Judge Ansberry told the committee friends of Matthews had made political capital of the bank's closing, spreading the report that Ansberry had urged the action by the banking department as a means of crippling Matthews. Ansberry testifies he regarded closing of the bank a bad move for the Democratic administration.

considering only the political significance of the act, and that he had advised Governor Cox and Lattanner against it. Representative E. F. Bohm of Cuyahoga told the committee he believes more Ohio people have made more bad land investments since the Blue Sky law went into operation than before. Prospective buyers appear to regard the licensing of a land company by the Blue Sky Bureau of the banking department as assurance that the investment is good, he declared. Merle A. Collier, of Defiance, county former chief clerk in the banking department and later private secretary to Congressman Ansberry, explained the Blue Sky Bureau aims merely to ascertain that companies make no extravagant claims for lands and that the lands actually exist, but that no guarantee concerning the value of the investment should be implied in the licensing of a company.

THAW'S TRIAL MAY OCCUPY SIX WEEKS

COURT EXCLUDES EVIDENCE OF DEFENDANT'S PRESENT MENTAL STATE

Admits Commitment Which He Claimed Illegal, Giving Him Right to Escape.

[ASSOCIATED PRESS TELEGRAM]

New York, March 10.—Although the prosecution had announced that they expected to complete today their case against Harry K. Thaw, on trial for conspiracy in escaping from the Matteawan asylum, John B. Stanchfield, chief of Thaw's counsel, said that he expected the present trial and the habeas corpus proceedings which may follow it, will occupy fully six weeks.

As the result of rulings on two points in the first days presentation of evidence, counsel for the state maintained that Justice Page had excluded from the conspiracy trial the question of Thaw's present mental condition. Thaw's counsel, however, held that the question of admitting evidence on that point has not been determined.

The state's attorneys claim victory in the two legal skirmishes, in the first of these, Justice Page overruled objection of Thaw's counsel to the introduction of evidence of the commitment on which Thaw was first sent to the asylum. Mr. Stanchfield had contended that this commitment was illegal and that therefore Thaw had a legal right to escape from the asylum.

The other ruling was the court's refusal to admit evidence given by a witness that since his commitment, Thaw has appeared to be rational. Thaw will take the witness stand in his own behalf in his trial according to the announcement made by his attorneys today. He will tell the story of his escape from Matteawan, they said.

In this way they believe he will materially aid the fight they are making to establish his sanity.

Each of the witnesses placed on the stand today by the state upon cross examination was asked questions designed to indicate to the jury that the slayer of Stanford White was of sound mind at the

London, March 10.—The German submarine U-20 has been sent to the bottom, according to a statement issued today by the British admiralty.

The submarine, according to the official announcement, was rammed today by the British torpedo boat destroyer Ariel. It went to the bottom.

The members of the submarine's crew were saved.

The location of the sinking of the submarine is not disclosed in the admiralty announcement.

The captured crew will be deprived of all special privileges, as was done in the case of the men on board the U-8 and they will be held for trial in connection with the sinking of merchant vessels.

DEFENDANTS' COUNSEL STATES THEIR SIDE IN ELECTION FRAUD CASE.

[Associated Press Telegram]

Indianapolis, Ind., March 10.—That under the law every person is presumed to be innocent until proven guilty and that the 28 defendants in the Terre Haute election case are on trial for conspiracy and not the vicious alleged overt acts is the contention of Frank S. Roby, who made the opening statement for the defense in the United States district court here today.

Attorney Roby declared that Judge Eli H. Redman, one of the defendants had not acted as collector of the "slush fund" as asserted by District Attorney Dailey and that he was innocent of any violation in either the federal or state law.

OBREGON STILL COMMANDS

According to Vera Cruz Dispatch, While Villa Agency Says He Left Yesterday—Mexican Red Cross Appeals Through State Department for Food for Starving Populace.

[ASSOCIATED PRESS TELEGRAM]

Washington, March 10.—Developments in the Mexican situation today were awaiting General Carranza's answer to the American note, demanding an improvement of conditions in Mexico City. There were indications that the reply would be favorable.

Conflicting dispatches as to the evacuation of Mexico City during the last 24 hours caused much doubt. A dispatch from Vera Cruz yesterday at 10 o'clock a. m., indicated General Obregon was still in control. The Villa agency had dispatches from Juarez, saying Obregon's troops evacuated yesterday and were replaced by Zapata troops.

No changes were made in the naval orders which are sending the battleship Georgia and the armored cruiser Washington to Vera Cruz to reinforce the fleet of "Small craft" there.

Advices from Vera Cruz indicated that negotiations were in progress which probably will make possible the export of sisal fibre from Progreso, the Yucatan port blocked by Carranza's order. For the present, however, General Carranza refuses to permit the steamer Morro Castle to call at Progreso or to grant clearance papers to the Pathfinder from Vera Cruz to the same port.

Secretary Daniels today issued a statement on the condition of the Atlantic fleet and its auxiliaries now maneuvering in Mexico gulf and Caribbean waters. It was considered of significant by some observers of the Mexican situation and follows: "Never in the history of our navy has such a powerful fleet been assembled for active service, maneuvers and target practice with guns and torpedoes as that based on Guantanamo Cuba for the last two months under the command of Rear Admiral Fletcher, commander in chief of the Atlantic fleet. This force now consists of nineteen battleships and twenty destroyers with a flagship and a tender."

"Based also on Guantanamo bay is the cruiser squadron, consisting of two armored cruisers and seven light cruisers and gunboats, the various units of which have been operating in the vicinity of Haiti, Santo Domingo and the east coast of Mexico."

"The vessels comprising this fleet are ready for any service and accompanied by repair ships, supply ships and fuel ships carrying coal, oil and supplies for an extended period."

"At Key West, the reserve torpedo flotilla, consisting of 10 destroyers and a tender have been engaged in extended operations."

"At Pensacola six submarines with four tenders have been operating engaged in maneuvers distinctly (Continued on Page 10, Col. 4.)

RUSSIANS DRIVE TURK AND KURD TO SOUTHWARD

[ASSOCIATED PRESS TELEGRAM]

Tiflis, Transcaucasia, Tuesday, March 10.—The Turkish forces and the Kurds, who have been concentrated in the district of Khojin, northwestern Persia, are slowly being forced by the Russians to retreat to the southward. Russian forces already have come into possession of several villages in which Turkish troops had been quartered.

Information reaching here from the south is that a large number of Armenians who remained in Urumiah (a city in Persia Armenia, sixty miles from Tabriz) were placed under the protection of the American consular officials. There is a consulate at Tabriz. Two thousand Armenians were locked in a church at Urumiah for safety. They were ill supplied with food and many died from starvation and disease.

SITUATION FAVORABLE TO ALLIES

HINDENBERG'S RETREAT

From North Poland Seems Imminent—Italy and the Balkans Clamor for Intervention Favoring Triple Alliance, While in Greece the Same Sentiment Prevails.

[ASSOCIATED PRESS TELEGRAM]

London, March 10.—As England sees it, not since the war began has the situation both on land and sea been more favorable to the allies than it is today. Confident opinions of this nature are finding constant expression in London.

Slowly, but surely, it is argued, the allied fleet is creeping toward Constantinople and thus opening another road to Berlin; the retreat of Field Marshal von Hindenberg's army from North Poland is said to be imminent by many British observers of affairs; in the west, the allies claim the ascendancy all along the line, although no decisive engagements are being fought, while in the Balkans and in Italy, according to British interpretation of the political news from these countries, the majority is clamoring for intervention on the side of Great Britain, France and Russia. This is said to be notably true in Greece, and Rumania in spite of the fact that the governments of these countries still cling outwardly to the policy of neutrality.

The crisis in Greece seems temporarily to have been bridged with the formation of a new cabinet, but whether the new premier can control the chamber of deputies, is causing much speculation here.

Though officially denied, reports insist that a ministerial crisis has arisen in Bulgaria, where the premier, favoring intervention, was opposed by King Ferdinand. It is said that the Bulgarian prime minister stepped from office at the same time that Greece's leading statesmen retired.

Paris officials confirmed today what London heard officially last night, namely, that the superdreadnaught Queen Elizabeth, slipped into the Dardanelles proper Monday and bombarded the Turkish forts, another one of which on the European side, has been partly demolished.

Correspondents at Petrograd of English newspapers say the German failure to reduce the Russian fortress of Osowetz, together with the reported German defeat at Grodno and Przemysl, means the definite abandonment of the German offensive in North Poland, thus making in the opinion of these correspondents, Field Marshal von Hindenberg's rush over the frontier another costly failure.

The Germans, though unable to advance in Russia, are reported to be holding a line some thirty miles behind the extreme limits of their forward dash of a month ago.

In Central Poland, both the Russians and the Germans are attacking alternately with no appreciable change in the situation being made.

The same is true in the Carpathian mountains and generally along the western front in France and Belgium.

BRITISH SEIZE AMERICAN BARK, COTTON LADEN

[ASSOCIATED PRESS TELEGRAM]

New York, March 10.—Dispatches from Galveston announcing that the American bark Pass of Baltimore has been seized by a British cruiser and taken to Kirkwall, was the first news received here of the fate of that vessel. Fears that she had been held up already had arisen, however, when it was learned that the sailing ship Vincent which left here for Bremen a short time before the Pass of Baltimore had arrived at that port.

Both vessels were loaded with cotton and as they sailed about 13 hours apart, wagers as to which should be the first to arrive at Bremen had been placed at maritime circles. It was the first time in 50 years that two old time wind jammers which once made the American flag famous in every port in the world, had sailed almost together from this port. The Vincent was to take a course through the English channel, while the Pass of Baltimore was to pass north of Scotland.

Physician's Prescription For Indigestion

Important for All Those Who Suffer After Eating.

If you suffer from indigestion after eating and find that instead of the one little pebble or soda pill you used to take, it now needs two or three to stop it, it's time you called a halt and did some hard thinking.

The plain truth is that there are thousands of men and women in this country whose stomachs are dead or dying from lack of exercise while they themselves still live. They can't go on this way much longer. It's wonderful to think that powerful drugs compressed in a pill will even for a little while do the work of a human stomach. But no pill was ever made that could do it for long.

A dead stomach can't be brought to life, but a slowly dying stomach can and you must or its owner must soon follow. Years ago a famous physician wrote the prescription for Mi-o-na Stomach Tablets and thousands owe their lives to them today. Most stomach remedies work on the food and digest it. Mi-o-na works on the stomach and digests nothing. Mi-o-na Tablets strengthen the stomach walls, stimulate the stomach muscles and vitalize the normal machinery into instant action. The stomach starts at once to churn its food and normal painless digestion follows. T. J. Evans and many other leading druggists hereabouts sell Mi-o-na Tablets, agreeing to refund money in any case where it does not do these two things. First, in ten minutes give relief from heart-burn, gas, belching, acidity, sour rising, etc. Second, in thirty days completely renovate, cleanse and strengthen the stomach so it can do its own work without aid of any kind. If your own druggist thinks this well of Mi-o-na you surely ought to try it.

BOMBARDMENT DARDANELLES WAS RESUMED

(ASSOCIATED PRESS TELEGRAM)

Paris, March 10.—Operations of the allied fleet in the Dardanelles, stopped yesterday (Tuesday) morning by unfavorable weather conditions, were resumed vigorously in the afternoon, says an Athens dispatch to the Matin. The washings are reported to have made additional progress in the narrows, since Turkish batteries on the heights of Renkai, the fire from which had proved troublesome to the fleet in its maneuvers.

CROWDS ATTEND IRWIN REVIVAL IN WEST NEWARK

The largest attendance yet greeted the Irwins at the revival last evening. The large chorus sang several inspiring songs. Mrs. Irwin sang an impressive solo, and then the evangelist spoke on the theme, "Building the Walls of Zion." He showed that character will raise a man from the most adverse circumstances to one of honor and power. Nehemiah, although an exile in Babylon, by his industry and faithfulness, arose to the position of cup-bearer to King Artaxerxes. While in this place, he learned from his friend Hanani that the old home town of Jerusalem was in sad plight—that the walls were broken down, the gates burned with fire and the inhabitants in and around Jerusalem in great affliction and reproach.

This news so preyed upon the mind of Nehemiah that he lost his customary alacrity and cheerfulness, and the king, noticing his sadness, asked him the cause. Then Nehemiah prayed to God; after, he told the king, and was granted the privilege, the men and the supplies necessary to rebuild Zion's walls. This Nehemiah did in the incredibly short space of time of fifty-two days, for the "people had a mind to work." Today Zion's walls are delapidated; today the world needs many a Nehemiah who really does care; and will make his anxiety powerful in effective action; today great things could be accomplished in bringing this old sin cursed world to God, if only His people "had a mind to work."

Tonight the subject of the sermon will be "The Chief Need of the Church."

Mrs. Irwin will sing a solo. A very helpful meeting is anticipated.

One Consolation.

Floating Docks.
A floating dock may be likened to a box with neither ends nor lid. It is built of steel throughout, the largest type having a length of 680 feet and a width of 144 feet, while the walls are 66 feet in height. The dock is first submerged by admitting water into the ballast tanks or pontoons forming the base of the structure. When it has been sunk to a sufficient depth to receive the vessel the latter is warped into its correct position on the keel blocks of the dock and is then made fast. Powerful pumps are set to work to eject water from the pontoons, causing the structure to rise gradually with its burden. To lift a battleship of the largest size 40,000 tons of water has to be pumped out of the pontoons. So perfectly, however, are these floating docks constructed that one man can control every movement from what is known as the valve house.—London Tit-Bits.

Bagdad's Mysterious Scourge.
An uncanny, pernicious pest called the "date boil" scars the face of every human born in Bagdad. Children invariably have this dreadful sore on their faces. Throughout the middle east this mysterious scourge is known by various names—"Buton d'Alep," "Nile sore," "Delhi button," etc. Its cause and its cure are unknown. First a faint red spot appears, growing larger and running a course often eighteen months long.

White men from foreign lands have lived years in Arabia, only to have this boil appear upon their return to civilization, where its presence is embarrassing and hard to explain. May be it was "date boils" that Job had! Once a British consul at Aleppo lost almost his whole nose from one of these boils. Nearly every Bagdad native you meet has this "date mark" on his face.—National Geographic Magazine.

Wheels and the World.
The history of the evolution of locomotion as well as an infinity of other studies of the keenest interest could all be centered in the wheel.

Without wheels we should have no watches, no steering at sea. We should be unable to utilize the waterfalls as motor force, nor should we have hundreds of other things of the utmost attraction and utility.

All our modern civilization has come to us on wheels. All we know about other countries, all the commerce we have established throughout the world and our means of wealth we owe to the wheel. It is difficult to imagine what the world would come to if suddenly all wheels vanished from our midst. No war, no famine, no revolution, could be one-hundredth part as effectual in putting us back centuries as the lack of wheels.

The romance of wheels has gone, never to return again. Wheels are now looked upon merely as accessories, whirling indifferently, faster and faster, but practically ignored.

He Saw the Battle.
There were no war correspondents in Wellington's time, but that his attitude toward such would have been friendly may be judged by a story told by Lady Dorothy Nevill.

At Waterloo the duke noticed a little man in plain clothes, mounted on a sturdy cob, who rode blither and thither in the thick of the fight. He had him brought to him to demand his business, whereupon the man explained that he was traveling for a Birmingham button maker and, chancing to be in Brussels and never having seen a battle, he was taking the opportunity of seeing this one. Wellington not only allowed him to continue his observations, but presently trusted him with a dispatch for one of his generals in the firing line. The safe delivery of the message was rewarded, in more peaceful times, by a comfortable government appointment.—London Opinion.

Placing the Defendant.
A legal journal says that a suit brought by a portly man against a little man with a hacking cough had gone to the jury, at which time it appeared from the evidence and the instructions of the court that the big man had won the case. After half an hour the jury was called and asked if a verdict had been reached.

"No, your honor," replied the foreman. "We only want to know which is the defendant and which is the plaintiff."

"The large man sitting over there is the plaintiff, and the small gentleman here is the defendant," replied the judge.

The jury filed back to the jury room. In a few minutes they signaled that they had reached a verdict. The judge received it and read:

"We, the jury, find for the man with the consumption."

Early Hand Guns.
When Edward IV. returned to England, in 1471, ten years after he succeeded to the throne, he obtained some forces from his brother-in-law, the Duke of Burgundy, including 300 Flemings armed with hand guns, thus being the first to introduce these weapons into England. Afterward they became common. At first they were fired by the application of a lighted match to the touchhole by the hand. The match was a wick lighted and pressed against the powder in the pan. The invention of a lock to fire the powder in place of the hand was suggested by the trigger of the crossbow. The matchlock fired the arquebus, or barquebus, used by the soldiers of the fifteenth and sixteenth centuries, in projecting a ball which weighed nearly two ounces.—London Telegraph.

A Rapid Calculation Trick.
By means of a simple arrangement of numbers a calculation can be made which will easily puzzle any unsuspecting person. If the two numbers 41,096 and 88 be written out in multiplication form very few will endeavor to write down the answer directly without first going through the regular work. By placing the 3 in front of the 4 and the 8 back of the 6 the answer is obtained at once, thus: 41,096x88 equals 3,410,968. A larger number which can be treated in the same way is the following: 4,168,589,041,096x88 equals 341,095,890,410,968.—Popular Mechanics.

FORMER NATIONAL SECRETARY UNITED COMMERCIAL TRAVELERS' ASSOCIATION

Is Said to be Short \$31,483—Bond Will Save Organization From Loss.

(ASSOCIATED PRESS TELEGRAM)

Columbus, March 10.—It was announced at the state insurance department today that there had been found a discrepancy in the accounts of C. C. Daniel, former national secretary of the United Commercial Travelers' Association, of \$31,483, against Mr. Daniel. John W. Crooks, who was appointed by the state superintendent of insurance to examine the books and accounts of the secretary, filed his report and the state superintendent, former Judge Frank Taggart, gave a hearing at which the officers of the company and representatives of the bonding company that issued a bond for \$100,000 to secretary Daniel, were present.

At the insurance department, it was explained that it was no part of the functions of the state superintendent to initiate criminal proceedings in such matters, and unless the prosecuting attorney calls for a copy of the report, no move in that direction will be taken. The prosecutor will begin an investigation at once.

Mr. Daniel is with his wife in Mississippi, where they went some time ago on account of his health.

The U. C. T. organization will not be affected by the discrepancy as Daniel's bond is ample to cover all possible shortage.

WOMEN PROUD OF RELIEF WORK FOR BELGIANS

Licking county has reason to be rather proud and happy over her generous contribution to the suffering Belgians. In days of prosperity we are only too apt to become indifferent to the needs of others, because of the comparatively few calls on our generosity. But our great American nation is wonderfully big hearted and liberal in answer to the cry of real distress, no matter from what quarter it comes. That cry is echoing now from the poor Belgian women and children, over our entire country, from the Atlantic to the Pacific, and every state is hurrying forward with help and sympathy. Licking county has done her little part most nobly and generously. An excellent organization was formed over the entire county by Mrs. Frank P. Kennedy, with a prominent lady at its head in each town and district. In filling a 60,000-pound car, the women have proved themselves splendid, capable workers—as they always do in this town and county when a good cause inspires them, and a capable leader directs. In this case the result shows that the cause appealed to their deepest sympathies, and that the leader was untiring in her work to arouse those sympathies. The reward to each one who gave, even though it was ever so little, will surely be great—for the gift was to the helpless of a stricken people with no neighbor who was able to lift them out of their distress. So we Americans are proving ourselves to be the real neighbors of the parable.

Cave Spiders.
Spiders of several kinds are found in caves. They are uniformly small, weak and of sedentary habits. No webs do they spin save a few irregular threads sometimes. What they live upon is rather a puzzle, though it is supposed that they catch stray mites and other such small fry.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove it

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. They are not a cathartic, but a natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, "driving" cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable effects of any kind. They are a discovery of the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color.

Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

A Blunt Excuse.
There is a story of an English clergyman who had taken temporary duty for a friend and who had the ill luck to injure his false teeth during the week. The plate was sent to the dentist for repairs, a faithful assurance being given that it should be returned by Sunday's post, but the dentist or the post proved faithless.

With the assistance of the clerk the clergyman managed to stumble through the prayers, but felt it would be useless to attempt to preach. He therefore instructed the clerk to make some excuse for him and dismiss the congregation. But his feelings may be better imagined than described when, in the seclusion of the vestry, he overheard the clerk in impressive tones thus deliver the excuse:

"Parson is very sorry, but it is his misfortune to be obliged to wear a set of artificial teeth. They busted last Wednesday, and he ain't got them back from London today, as he was promised. I've helped him all I could through the service, but I can't do more for him. 'Tisn't any use for him going up in the pulpit, for you wouldn't understand a word he said, so he thinks you all may as well go home."

Wagging the Ears.
You will rarely find that a man who can wag his ears suffers from deafness. The reason for this is very simple. Wagging one's ears exercises them just as much as walking exercises the muscles of the legs. A great deal of deafness is caused by the muscles of the ears becoming stiff and refusing to respond quickly to the sound waves. Quite a large proportion of children can move their ears, just as they can move the skin on their forehead up and down, but as they grow up they lose their power through want of practice. It is a mistake to let a child lose this power, for it may mean the difference between good and bad hearing in after years. Dr. M. Fernet, the famous Paris doctor, has even gone so far as to suggest that people should be trained to wag their ears, just as they are trained to exercise any other muscles of the body.—San Francisco Chronicle.

Defining a Gentleman.
The true gentleman is the man whose conduct proceeds from good will and an acute sense of propriety and whose self control is equal to all emergencies; who does not make the poor man conscious of his poverty, the obscure man of his obscurity or any man of his inferiority or deformity; who is himself humbled if necessity compels him to humble another; who does not flatter wealth, cringe before power or boast of his own possessions or achievements; who speaks with frankness, but always with sincerity and sympathy, and whose deed follows his word; who thinks of the rights and feelings of others rather than of his own; who appears well in any company and who is at home what he seems to be abroad—a man with whom honor is sacred and virtue safe.—Dr. Wayland.

Notes Not Elaborate.
The bishop of St. Albans wrote that on a certain occasion he heard Bishop Wilberforce describe with such singular eloquence and power the effect on the soul of the clearing away of intellectual doubts that he begged to be shown the manuscript from which his friend had been preaching, as he wished to copy certain portions of the sermon.

The Gatling Gun.
Richard Jordan Gatling, the inventor of the gun bearing his name, was a native of Hartford county, N. C., where he was born in 1818. The Gatling gun was not used to any extent during the war between the states, a dozen or so being employed by Butler on the James river. The invention was not made fairly practical until 1865, when the gun was adopted into the United States service.

Antiquity of the Giant Sequoias.
Compared with the giant sequoias every other living thing in the world is a creature of today, and there are only a few evidences of man's handiwork still in existence—some of the ruins of ancient Greece and Assyria—that were constructed at an earlier date.

Wednesday officers brought a youth before Chief Sheridan for an examination and while the lad told a plausible story, the matter was held open for further inquiry by officers.

MOVING PICTURE CENSOR RESIGNS RESULT OF CLASH

(ASSOCIATED PRESS TELEGRAM)

Columbus, Mar. 10.—As a result of a clash with the state industrial commission over the question of taking a trip to California, the guest of a film company to visit the company's western headquarters, Harry E. Vestal, member of the Ohio board of motion picture censors, has tendered his resignation of the commission. It is understood that he resigned his position by request.

Vestal is editor and owner of the Ada Record and operates two moving picture houses in Governor Willis' home town.

SHERIFF'S WIFE LOCKED IN JAIL; PRISONERS LEFT

Mt. Vernon, O., Mar. 10.—Hubert Lindsay and Alex Lindsay, brothers, being held for grand larceny, asked Mrs. John M. Woolson, wife of the sheriff to open a corridor window, after she took them their breakfast this morning. When she complied, they escaped from the new county jail by locking her in. Both men have criminal records.

Handy Quotation Marks.

Judge Bodkin's book of reminiscences contains a description of one of the editors under whom he served, John B. Gallagher, who is said never to have read a book in his life. It was he, says the Dublin General Advertiser, who revised the reporter's copy and mercilessly mutilated the manuscript.

He had one curious delusion. He fancied that inverted commas were a protection against a libel action, and, stranger still, an excuse for any eccentricities of style. On one occasion Mr. Bodkin in describing a theatrical performance wrote that it was "exquisitely amusing." "Old G." cocked his head critically on one side. "I don't like that word 'exquisitely,'" he said. "All right, sir," I answered, "I'll strike it out."

"No, no; it's a good enough word, but it's a little unusual there. Tell you what, we'll quote it."

"Quote it from what?" I asked in amazement. "Oh, it does not matter. Just simply quote it." Next morning the Freeman's Journal duly reported that the performance was "exquisitely" amusing.

Fixing Up an Election.

A curious incident once occurred at Patton at an election for parliament. Sir Mark Wood, who had been one of its members for several years, had as his colleague in the parliament of 1812 Sir William Congreve, the inventor of the famous "Congreve rocket." The latter resigned in 1816, and the baronet wished his own son to fill the vacancy. There were only three voters in the constituency—Sir Mark, his son and his butler, named Jennings—but as the son was away and the butler had quarreled with his master an opportunity was afforded for a singular revenge. Jennings refused to second Sir Mark's nomination of his son and proposed himself, and a deadlock was averted only by Sir Mark coming to terms with the refractory butler, whose nomination he seconded in order to induce him to act as a seconder to his son. Matters being thus put formally in train, Sir Mark arranged with Jennings that the former's vote should be alone given, and the final state of the poll at Patton's only known contest stood thus: Wood (Tory), 1; Jennings (Whig), 0.—Westminster Gazette.

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulcerations, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

DENISON BOYS ARRESTED OFF BLIND BAGGAGE

ATTEMPTED MURDER COMMIT-
TED AND POLICE NAB THEM
AS SUSPECTS

When They Reach Bucyrus from
Oberlin Game—Were Soon Re-
leased After Lecture.

Four Denison Boys will have occasion to remember their trip to Oberlin Saturday to witness the Big Red go down to defeat. They boarded a train for Crestline and arrived there shortly after midnight. They next boarded the blind baggage car on a Pennsylvania train intending to go to Bucyrus and catch a freight train on the Toledo and Ohio Central for Granville.

In the meantime there had been an attempt to murder in Crestline Saturday night. Francesco Parra had shot at James Tridico and hit the latter's wife. The parties are Italians. The woman was rushed to Bucyrus and placed in a hospital and a probe was made for the bullet which entered her abdomen and ranged downward into the woman's left leg. Physicians say she will live.

Bucyrus patrolmen were notified of the shooting and also that several men were seen to board the blind baggage car on No. 15, bound for Bucyrus. The police officers camped at the station and when the train arrived they took four young men off the front end of one of the baggage cars. The young men were marched to the patrol station and after showing their credentials proved to be students of the Oberlin college.

After securing an early breakfast they started in the direction of the old college town via of a fast freight.

OBERLIN STUDENTS
IN LAW'S CLUTCHES
CASE COMPROMISED.

Oberlin, O., March 10.—After 11 Oberlin college students had appeared here before Mayor Yeomum yesterday on a charge of creating a disturbance and carrying concealed weapons in connection with the basketball celebration Saturday night, the case was compromised by the discharge of 10 and the conviction of one.

The celebration came because of the defeat administered to the champion Denison basketball five.

THIN FOLKS WHO WOULD BE FAT

Increase in Weight Ten Pounds or
More

A Physician's Advice.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood all the fat and flesh-producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by Evans Drug Store and other good druggists everywhere and every package contains a guarantee of eight increase or money back.

Clarence Mackey
Leases 3,000 Acres,
Shooting Preserve

Associated Press Telegram
New York, March 10.—Under a long term lease with a purchase option, Clarence H. Mackey, president of the Commercial Cable company, it was announced today, had come into possession of Gardiner's Island, consisting of 3,000 acres off the easterly end of Long Island, which will be used as a shooting preserve.

The island has been in the possession of the Gardiner family since 1638.

"One large black dog, one gun, some powder and shot, some rum and a few Dutch blankets, the value of five pounds sterling," was the price originally paid for the island, according to records, by Lyon Gardiner, who made the deal with Wyandanch, chief of the Manhettets of Long Island.

IT RUINS HAIR TO WASH IT WITH SOAP

Soap should be used very sparingly. If at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

ANOTHER DOCTOR FOR NERV-WORTH

Second Huntington, W. Va., Physician Recognizes Remedy's Value.

On Monday in this Space, a Nerv-Worth endorsement written by one of Huntington, W. Va.'s prominent physicians, Dr. N. B. Ferguson, was given to prove a previous statement that Nerv-Worth's wonderful virtues were fast gaining recognition in professional medical circles. Below will be found another proof of the same kind, a written endorsement from another prominent Huntington physician, Dr. Geo. W. Adams, who on Tuesday last wrote as follows:

"I suffered with nervous indigestion and all the ills originating from such conditions. Have been taking Nerv-Worth for one week and can say my conditions are much improved and I can recommend Nerv-Worth to any one suffering from neurasthenia."

WILL DECIDE UPON GLASS FACTORIES' SUMMER VACATION

(Associated Press Telegram)
Pittsburg, March 10.—The question of determining how long the summer idleness of glass factories shall last, was the principal subject to be discussed at today's session of the annual convention of the National Association of Manufacturers of Pressed and Blown Glassware. The meeting opened yesterday and will continue until Friday. The following officers have been elected: President E. J. Barry, Toledo, Ohio; vice president, M. W. Gleason, Brooklyn, N. Y.; Secretary, John Kunzler, Pittsburg; treasurer, J. D. Wilson, Tarentum, Pa.; executive committee, M. W. Gleason, C. B. Rowe, Moundsville, W. Va., C. W. Rodefer, Bellaire, Ohio, George R. West, Grapeville, Pa., and George Dougherty, Triffin, Ohio.

England's Army Rifle.
Quite a number of people believe that cartridges are served out to the soldiers separated from one another. Cartridges are, however, usually given out fastened together in clips of five. The modern rifle used by the British army is known as a magazine rifle and holds two clips or ten cartridges in the magazine itself as well as an extra cartridge above the magazine, eleven rounds in all.

When the cartridge clip is forced into the magazine the fastening is removed, so that each cartridge when it reaches the magazine is separate from the others.

The magazine of the army rifle is nothing more than a detachable box containing a spring. This spring forces up one cartridge at a time into its position ready for firing. As a rule the ten cartridges in the magazine are only used in great emergency, as when the order for rapid firing is given to stop an enemy's charge. In the ordinary way the magazine, with its ten cartridges, is shut off from the rest of the rifle by means of a metal slide called the "cut off"—London Standard.

Spoiled the Scoop.
The newspaper special, although always the cutest of the cut, is sometimes "scored off" by a colleague. For instance Sir W. H. Russell represented the London Times at O'Connell's trial in Dublin.

In those days the telegraph was unknown, and as his paper wanted to go one better than the Morning Herald, its great rival, Russell hurried back to London by special boat and train immediately the verdict was pronounced. As he got out of the cab in Printing House square a man in shirt sleeves, apparently a printer from the Times, came up and exclaimed: "So glad to see you safe over, sir. So they have found him guilty?" "Yes, guilty, my friend," replied Russell.

The Morning Herald came out with the news of the bare fact as well as the Times. The shirt-sleeved man was a smart representative of the rival paper.—London Tatler.

THIN FOLKS MADE FAT

The Way Samose Works Its Wonders—Guaranteed by W. A. Erman & Son.

More than half of the readers of The Advocate would give almost anything to be plump and rosy instead of thin and scrawny.

Physicians and chemists for years have studied the problem of making a flesh-forming food, but it is only within the last few months that a bright man discovered the prescription that taken with the daily meals gave a positive increase in flesh. In fact it was so certain in its action that a guarantee was attached to each package stating that if weight did not increase as a result of using it, the purchase price would be refunded.

This preparation is now put up in convenient form for use under the name of Samose.

W. A. Erman & Son secured the agency in Newark for Samose, and as the percentage of satisfactory results from the use of this prescription is so nearly one hundred per cent. they feel there is no risk in offering to refund the money if Samose does not do all that is claimed for it.

Everybody that is thin and out of health should begin today the use of Samose with a guarantee like this.

EXERCISE AND GRECIAN BEAUTY

WHAT IT MEANS

Many thousands of women are now-a-days paying attention to physical culture and the proper exercise of their body muscles, where, thirty years ago or fifty years ago there was not thought expended on this science, which is quite necessary to physical beauty. The reason the Greeks, both men and women, excelled in beautiful and symmetrical forms was because of the attention they paid to the proper exercise. Then, too, they were untrammelled by corsets, shoes and the inconveniences of clothing. To the minds of some women the idea of physical exercise conveys only the idea of hard fatiguing work. Mild exercise continued day after day is best for the body and spirits and health.

Without proper exercise there can be no health, and without health there can be no real beauty.

There is no stronger proof of the sound remedial value of Dr. Pierce's Favorite Prescription than that it restores the wasted form to its wonted roundness.

The mighty restorative power of Dr. Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from Nature's roots with glycerine with no alcohol to falsify stimulate. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensations, worry and sleeplessness surely and without loss of time.

Sick women are invited to consult Dr. Pierce, by letter, free. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.—Adv.

Shoes and Nerves.
Travelers say that the reason why nervous people don't exist in China is because it is the custom to wear soft shoes there. There is no doubt that hard soled, creaking footgear is responsible for such nervous wear and tear as well as physical fatigue in western lands.

Tired feet and tired nerves will find solace in a warm foot bath with a handful of salt in it. Move the feet about or keep them still, as best pleases you, as long as the water is pleasantly warm; then dry them with a rough towel and put on a fresh pair of stockings.—Family Doctor.

A Difficult Wife.
An Englishman thus described the wife of his bosom in his will:

"Heaven seems to have sent her into the world solely to drive me out of it. The strength of Samson, the genius of Homer, the prudence of Augustine, the skill of Pyrrhus, the patience of Job, the philosophy of Socrates, the subtlety of Hannibal, the vigilance of Heracles, would not suffice to subdue the perversity of her character."

Built Over Caverns.
The ground under the city of San Salvador is full of caverns of unknown depths. A man was once digging a well there. At the last stroke he gave with his pick the bottom fell out, and he and his pick fell through, nobody knows where. At least so "they say."

BOTH OPERATORS AND MINERS ARE OPPOSING STRIKE

(Associated Press Telegram)
Charleston, W. Va., March 10.—With both the miners organization and the operators of the New River Coal field opposed to a strike, a settlement of the differences is expected to be made at a conference of Thomas Haggerty, of the International executive board of the miners and the operators at the headquarters of the latter in New York. Haggerty left for that city today.

It is admitted by both sides to the controversy that no strike will be called and that concessions will be made by each.

It is expected the terms will be outlined at the New York conference at which sufficient progress will be made to prevent suspension of work when the present wage agreement expires, March 31.

Funeral Souvenirs.

Weird funeral souvenirs of Dutch origin were called "doed-koecks," or "dead cakes." With a small bottle of wine and a pair of gloves two of these were sent by way of invitation to relatives and friends whom one wanted to attend the funeral. The original recipe for these cakes, which is said to be authentic, called for fourteen pounds of flour, six pounds of sugar, five pounds of butter, one quart of water, two teaspoonfuls of pearl ash, two teaspoonfuls of salt and one ounce of caraway seed. These were baked in four inch squares, then frosted and marked with the initials of the "de-funct friend." Sometimes they were eaten at the funeral dinner, but usually they were taken away, like wedding cakes, as souvenirs. Many bakers made a specialty of "funeral cookery," one baker in Philadelphia advertising the specialty as recently as 1748.—New York Tribune.

Real Joy of Farm Owning.

I am not a gentleman farmer, with a great estate over which I ride once in awhile and leave all the real work to my underlings. I cannot think there would be great fun in this. No; I like to take hold with my Portuguese man and plant and spray and trim and prune. To be sure, he does more than his share of the rough work, and much of the year I must be cultivating other kinds of fields than those that grow cabbages and turnips, but the fun of farming comes from being a real farmer while you are one, getting close to the soil, becoming intimate with every living thing, whether it be a plant or animal; loving your tomato vines and raspberry bushes, taking a real pride in your eggplants and your brussels sprouts, whether you get a prize for them at the county fair or not.—Rev. Dr. Francis E. Clark in Countryside Magazine and Suburban Life.

A Recipe For Ghosts.

It is generally understood that "seeing ghosts" is the result of indigestion. The following notes may be useful to amateurs anxious to investigate psychological phenomena:

Lobster salad eaten after midnight, one ordinary ghost with chains.

Two Welsh rabbits and a mince pie, one mysterious gray lady emitting groans.

Cold roast pork, mixed pickles and strong tea taken immediately before retiring, a genuine family specter carrying his head under his arm.

A portion of cake, result of daughter's first lesson at cookery school, a troop of fearsome blood stained hobgoblins with blue lights shining out of empty eye sockets.—New York Journal.

Cleaning a Watch Chain.
Gold or silver watch chains can be cleaned with a very excellent result, no matter whether they be matt or polished, by laying them for a few seconds in pure aqua ammonia. They should then be rinsed in alcohol and finally shaken in clean sawdust, free from sand. Imitation gold and plated chains should be cleaned in benzine, then rinsed in alcohol and afterward shaken in dry sawdust.—St. Louis Republic.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

"My motto is 'never say die.'" remarked the optimistic individual. "Don't you think it's a good one?" "Not for me," replied the chance acquaintance. "I'm an underfaker."

It has been a hard winter for theatrical companies, but walking the railroad tracks is a good healthy exercise.

Efforts are being made to reform the spelling of college students. As their writing is often illegible, mistakes in spelling are often not discovered.

The small boy need not think he can throw an ink bottle around the school room and escape the consequences, on the ground that he was within his rights as a belligerent.

Some one asks what has become of the man who used to have a fireplace in every room in his house, and depend on them largely for heating. Well just now he may be scolding his wife for letting the furnace get down so low that the thermometer fell below 75 degrees.

Mid-Year Promotions.

There seems to be a growing feeling among educators in favor of more flexible rules for school promotions. In some schools it is a very difficult thing for a bright child to skip a grade. He may have too little to do in his present room and this may tend to idleness and perhaps mischief. With a little effort he could go to the grade above, thereby shorten his schooling, and be mentally better for the keener competition.

But it takes a little individual help for this to be done. Some teachers are too indolent to give it, and in many places the whole school system is too mechanical.

As far as possible the regular routine should bend to suit the individual child. The closer pupils can be graded, the better they will advance. It ought to be possible for a child to go ahead without skipping a whole year. If there could be one or two regular times for promotion during the year, it would make it easier to put a child with his mental equals. It is just as bad to have too little to do as to have too much.

Society Makes Itself Useful.

A dispatch from Hot Springs, Va., the famous winter resort, notes that society women are promoting the "Made in America" movement. "Independence blue," and various fabrics of cotton or other material are being worn by social leaders. It is an example that should be widely followed.

The influence which women of social prominence might exert in this direction is enormous. It would be such an easy thing for the social leaders in a dozen great cities, to pass around the word that it is strictly "the thing" to wear American grown and manufactured fabrics this season.

The purchases made by such women easily become a matter of public note. Clerks talk about it to all their customers. The idea spreads.

1776—Washington, who had just arrived at Boston, received instructions from the Continental congress to destroy Boston. If necessary, John Hancock, president of congress and a large owner of property in Boston, urged him not to hesitate to fire upon it.

Spirit of the Press

In the Beginning.
One of the results of Biblical archeology is that many of the elements of the Hebrew culture, which were regarded in the past as purely Hebrew, are found to have had their origin in antiquity. This is true as regards the Mosaic code. In other words, the culture of today is based upon that of yesterday. Not that it must be admitted from the evidence advanced that there is a direct bearing of the Mosaic upon the Hammurabi code, but there is every reason to believe that the Hebrew lawgiver codified these laws that were being practiced by the people and which he could sanction. This is illustrated by the recent discovery of laws older than the Hammurabi code.—Christian Herald.

They Believe in Safety First.
Perhaps those nuisances who are demanding the extradition of Jack Johnson are friends of Jess Willard.—Boston Advertiser.

New Old Slang.
Modern slang isn't necessarily new. It has been pointed out lately that "good night" in its modern slang sense appears in Shakespeare. In "Henry IV," part I, Worcester, speaking of the danger of the conspiracy (act I, scene 3), refers to the peril of one who should attempt to overtake "a current roaring loud, on the unsteadfast footing of a spear." Hotspur continues: "If he fall in, good night!" In connection with the Washington anniversary it may be recalled that as a young man Washington wrote: "I heard the bullets whistle, and believe me, there is something charming in the sound." That "believe me" is almost modern enough for a moving picture show.—Kansas City Star.

No Wonder He Ducked.
It would be just like Mexico to make Jack Johnson provisional president of that war-torn land.—Los Angeles Times.

A Reminder.
Germany reports that some of the shells sent over the trenches by the allies were "Made in America." Some years ago Russian shells captured by the Japs at Port Arthur and Mukden bore the legend, "Made in Germany." Business is business.—Omaha Rec.

Almost Ready To Begin.
Rome cables strongly indicate that Italy is almost ready to announce that heaven is on its side.—Columbia Star.

Limiting Debate.
A petition signed by 42 Democratic senators has been submitted to the chairman of the caucus requesting the appointment of a committee to work out a rule for limiting debate which rule is to be brought before the body as the first business in the next congress. This movement may be regarded as a definite abandonment of hope for the ship purchase

bill at the present session. The filibuster cannot be broken down. In its larger aspect, however, the question of limiting debates in the senate deserves serious attention. The right of every senator to a hearing, if he wants to be heard, is indisputable; but after reasonable opportunity has been given to all to have their say, there ought to be some way of bringing a bill up to a vote. In every parliamentary body it has been found necessary to introduce cloture in some form. Unlimited and purely obstructive speech-making is neither dignified nor necessary.—Philadelphia Record.

Talk On Thrift BY T. D. MAC GREGOR

HOUSEHOLD EFFICIENCY.

"The woman who can save money wins masculine respect and feminine envy."—Mrs. Carey.
"The same methods which are used in modern factory to eliminate false motions and waste of energy can and should be applied to the kitchen by the housewife," said Miss Martha Van Rensselaer, professor of Home Economics at Cornell University. In a recent talk on "Household Efficiency," she said that if the majority of homes were presided over by wives who were simply pleasure-loving parasites, wasting the earnings of their husbands, the consequence would be that their sons, the future lawmakers, would not be frugal in their expenditure of public money.

Household efficiency," said Professor Van Rensselaer, "does not mean that a woman must skimp in the kitchen. She should so manage that by applying a little reasoning power, eliminating waste here and a useless motion there, she can obtain the best results with the least possible outlay of time, money and energy."

Woman's work ought to be estimated in money the same as a man's. Women are earners and in reality have saved more money per capita than men, because it is in the home where there are the greatest possibilities of saving.

Where yearly incomes average from \$1500 to \$1800, 80 per cent of that income usually is spent for food, clothing and shelter. Since the woman is the one who does the spending, she should be able to spend wisely and obtain the greatest possible value for the least possible outlay.

Housewife, are you conducting your household along lines of true economy? Or are you making your family go without certain nutritious foods because the prices are high, while at the same time throwing away more than enough good food to offset the amount you think you are saving?

A recent number of the Ladies' Home Journal contained a good article by Mrs. Christine Frederick on how to arrange a family expense budget under the seven headings of: Shelter, Food, Clothing, Operating Expenses, Savings, Luxuries and Advancement.

There is no universal answer to the question of how the income should be distributed in these various divisions because the apportionment depends upon the size of the family; the taste and education; the social status; the occupation or standing. However, it is suggested that in incomes of \$1200 or \$1600 a year (thereabouts), the proportion should be: Shelter, 23 per cent; food, 30 per cent; clothing, 14 per cent; operating, 13 per cent; savings, 10 per cent; luxuries, 4 per cent; advancement, 6 per cent.

Many persons spend nearer 10 per cent than 4 per cent for luxuries, and more important things suffer, including the savings account.

The advantage of keeping household accounts includes:

The ability to see at a glance all items of expense.
Makes possible a comparison of items to see where greater economy can be practiced.
Any one item can be compared with the whole budget, thus showing its relative importance and giving further help towards wise spending and saving.

Pointed Observations

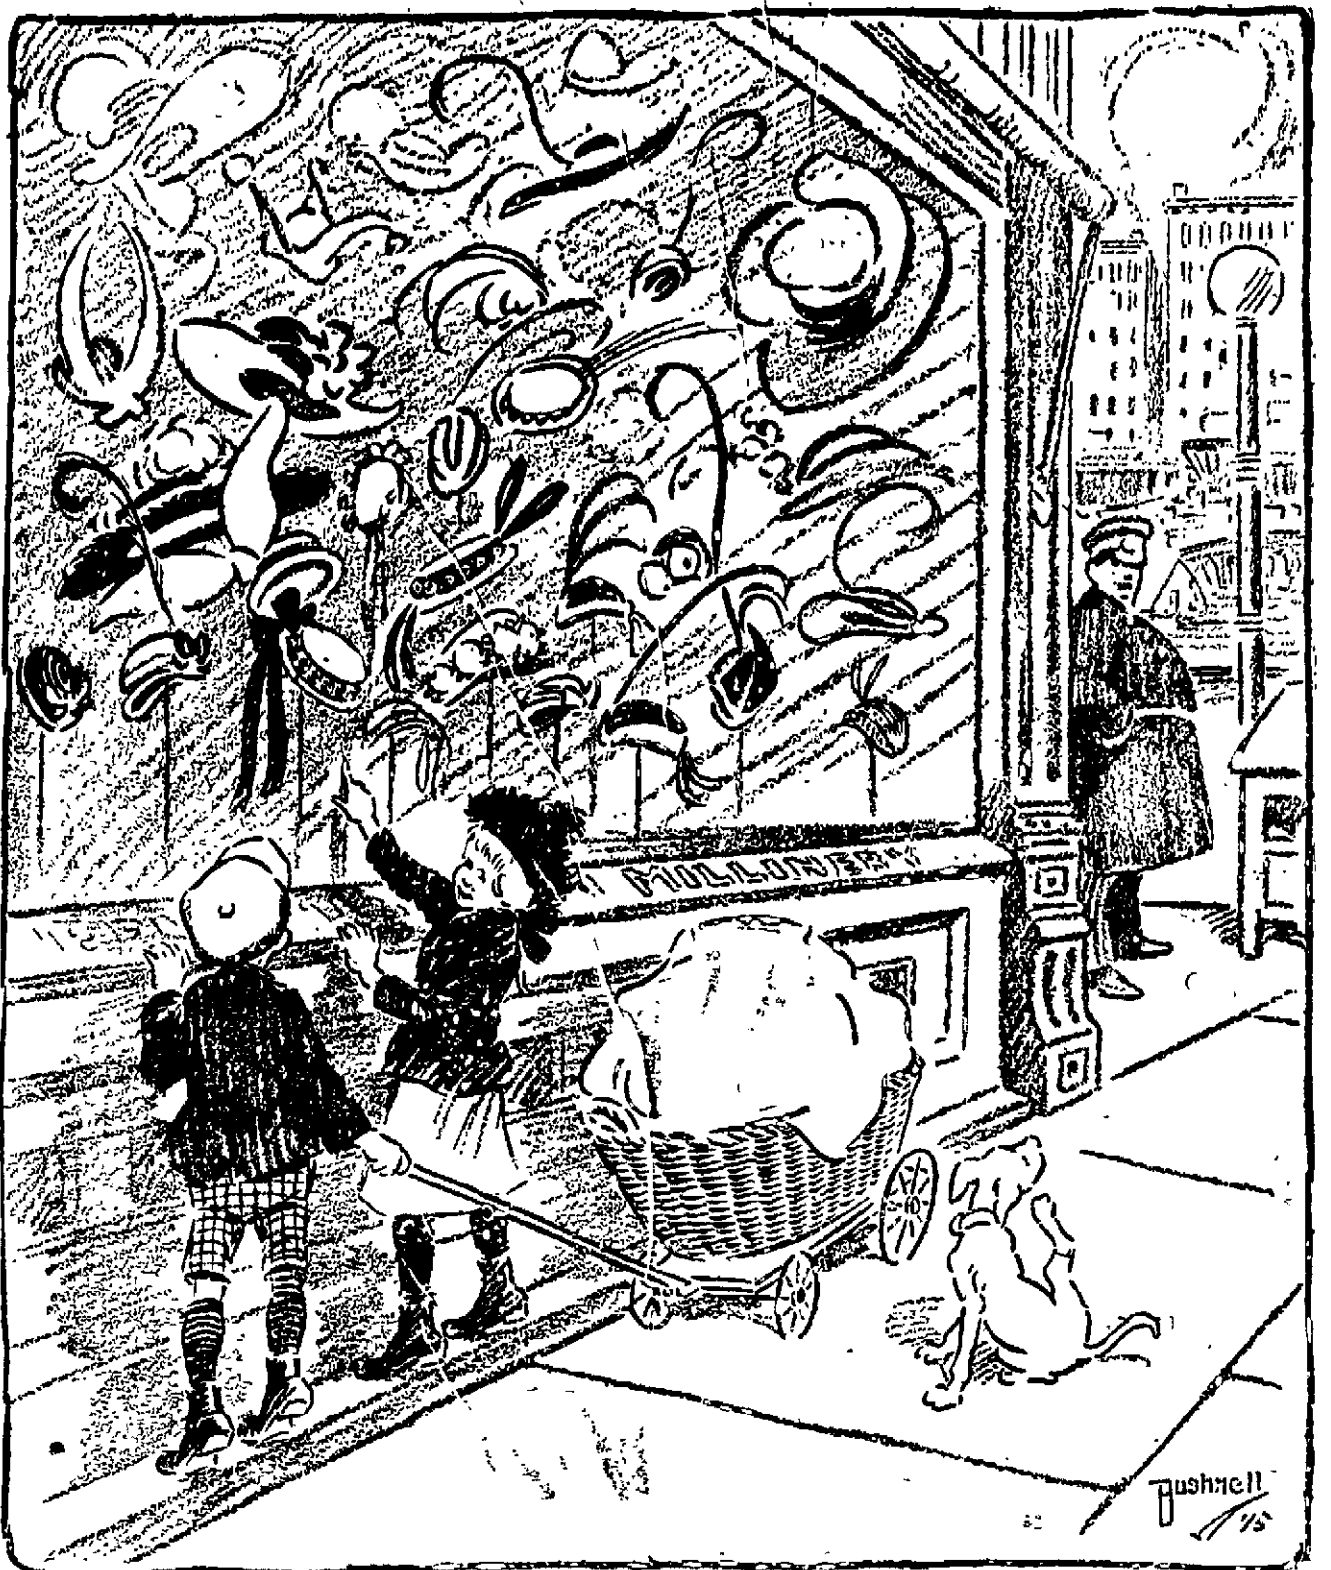

Wonder what would happen if some of our statesmen should mix their drinks—grape juice and pineapple cider? Since a combination must be different from that sold in Maine speak-easies, where it is stated a rabbit that was given a drink tackled a bulldog.—Washington Herald.

This free booklet is a plain statement of plain people as to their experience with Peruna. They have used Peruna. They know what they are talking about. Fathers, Mothers, Sisters, Brothers, Grandchildren and grandchildren. They all speak. Instructional reading. Send for one.

Peruna is a standard household remedy for coughs, colds and catarrh. It is also a slight laxative. An admirable remedy for old and young. It is a great saving in doctor's bills to have Peruna in the house. It is also convenient.

If your druggist does not happen to have Peruna in stock order it direct from us. \$1.00 a bottle, \$5.00 for six. We pay transportation charges. Peruna wins its own way. One bottle will convince you.

Lunar Vegetation.
Professor Pickering of the Harvard astronomical observatory declares that there is nothing less true than that the moon is without air, water or vegetation. There are certain large lunar areas that darken toward lunar noon and fade out toward lunar sunset. They correspond in some degree to the so-called Martian seas, and Professor Pickering uses the term "fields" to describe these plains or slopes, which he believes to be covered with vegetation. He is convinced that the dark fields to be seen during the lunar summer do not owe their blackness to shadow, for you can see them at full moon when shadows are absolutely invisible. The blue-black color of the fields and canals, he argues, can therefore be owing only to a discoloration of the surface that comes alike on slopes and levels in the lunar summer, and that is invisible in the spring and autumn. We know of no mineral that acts in this manner, and the only possible explanation seems to be that it is the result of a covering of vegetation.—Youth's Companion.

The Smoker's Paradise.
Mexico may be called the smoker's paradise. There is plenty of good, cheap tobacco in that country, where the leaf grows freely. Furthermore, no tax is levied upon it. One may buy in Mexico a cigar, every bit as good as the average ten-cent brand in this country, for a sum equivalent to two and a half cents of our money. Cigarettes are cheap in proportion. To protect the domestic article Mexico levies a prohibitive tax upon imported tobacco, so that no Mexican thinks of buying an American cigar. The laboring classes are able to buy two boxes of cigarettes, containing ten each, for two and a half cents in our money. The tobacco in these is the sun-dried natural leaf and of coarse grade, with coarse paper wrappings. The market is abundantly supplied also with cigarettes of high grade tobacco in the best paper wrappings. For the most part the Mexican takes his tobacco in the form of cigarettes.—New York Tribune.

The Chins of Burma.
The Chins of Burma are divided into a large number of clans, and a man may not marry a woman of his own clan, but after the marriage ceremonies are over the wife is initiated into her husband's clan and has her wrists wrapped round with cotton yarn as a witness to all evil spirits that she is under the guardianship of the clan, or ancestry, of her husband. The Chins are afraid of witches, but, as has been the case with other peoples, they find great difficulty in learning for certain whether a given woman is a witch or not. If they knew it they would certainly drive the woman out of the village and perhaps resort to further violence. Like the Burmese, they believe that witches have the power by their incantations to introduce foreign matters into the bodies of those whom they hate, and so to cause them to die.

The First London Directory.
The great family of Smith, Brown, Jones and Robinson had not spread so far over London when the first directory was published as it has now. Only eighteen Smiths, ten Browns, nine Joneses and four Robinsons figure in it, the Cooks, Halls, Hills and Kings being almost as numerous. There were then but five London bankers, or "goldsmiths that keep running cash," as the directory describes them—Richard Blanchard & Child, at the Marygold, in Fleet street; Mr. Coggs, in the Strand, at the King's Head; Benjamin Hinton, at the Flower de Luce, in Lombard street; James Herriott, at the Naked Boy, in Fleet street, and James Johnson, at the Three Flower de Luce, in Lombard street.—London Graphic.

Dresses and Flowers.
If you have had a waist or a light dress stained by wearing a bunch of flowers you will appreciate how much trouble might be saved by owning a chamomile case to cover the stem. Make this by stitching into shape a piece of chamomile the desired size. Into this case may be slipped the stems of any short stemmed flowers, and then they may be carried or worn without staining waist, glove or gown.—Exchange.

It Would Help.
A facetious bishop went to preach a charity sermon a short time ago in a church. The rector said: "I am grieved that you should have to come on such a windy day."

The bishop replied: "Put, tut, my friend. Didn't I come to raise the wind?"—Wisconsin State Journal.

Greatest Railroad Terminal.
Chicago is a greater railroad center than New York, or any other place on earth. As a railroad terminal the Windy City bears the palm over all the world and will probably continue to do so for a long time to come.—New York American.

A Modern Trend.
"Then she doesn't think that two can live as cheaply as one?" "No; her idea is that two ought to live as expensively as five or six."—Louisville Courier-Journal.

Widow's Caps.
The widow's cap is as old as the days of Julius Caesar. An edict of Tiberius commanded all widows to wear the cap under penalty of a heavy fine and imprisonment.

Beth.
Beth in the names of places mentioned in the Bible is the Hebrew word for "house." Thus, Beth-lehem is the house of bread; Beth-saida, house of mercy.

Mrs. Jessie Pope of Thornville spent Tuesday in Newark with friends.

COX IS BADLY HANDLED IN A FIST FIGHT

When Ed Cox pleaded not guilty to a charge of fighting his plea made a favorable impression upon Mayor Bigbee. Cox said that he did not strike a blow and his appearance impressed the mayor that he spoke the truth. His face was badly battered and his shirt was saturated with blood which had poured from his wounds.

He was arrested in connection with trouble in South First street Tuesday evening. Weldon Denny and Ed West being the others charged with participation in the fracas.

The other two men were not arraigned. Mayor Bigbee continued all three cases until Thursday morning at 8 o'clock, when they will be given a hearing. Affidavits against them charge Denny with disorderly conduct, West with fighting and disorderly conduct and Cox with drunk and fighting. Officers Beuhler, Harter, Vest and Stewart made the arrests.

LIBERALS ORGANIZE TO ANSWER CHARGES OF PROHIBITIONISTS.

Cincinnati, March 10.—"If our enemies organize to fight us, we must do likewise. If untruths are told concerning the vocations which each of us pursues, we must deny and refute them," said Fred Schneider, secretary of the administrative forces of the Liberal League at its organization meeting last night. "Wherever charges of these kind are made against our industry you must answer them and let the people of this state know that there is another side to this question. Prohibition means the loss of our positions, and it means fat salaries to the agitators who bring it about. Mark you, these men are not sincere and do not want real prohibition, but they want the legal manufacture to cease. Our positions will be filled by the bootlegger and the moonshiner."

Unfilled Steel Tonnage.

(Associated Press Telegram) New York, March 10.—The unfilled tonnage of the United States Steel Corporation on February 28 totalled 4,445,271 tons, an increase of \$6,800 tons over January.

CALLING ON FRIENDS.
Postmaster C. C. Hughes of Utica was a visitor in the city today calling on his numerous friends. Postmaster Hughes states that Utica is in a flourishing condition and that her business men are enjoying an era of prosperity. He predicts still better times in the near future. The postmaster is a great booster for Utica and states that it is one of the best little towns in the country.

GERMAN PEACE RUMORS LOWER WHEAT PRICES

(Associated Press Telegram) Chicago, March 10.—Violent downward swings in the price of wheat today resulted from London reports that an official announcement of Germany's terms of peace was about to be made. As much as 5 1-2 cents a bushel was cut from values in some cases, May wheat selling today at \$1.49 1-2, as against \$1.55 last night.

Feeling at the close was decidedly unsettled with the market, as a whole 2 1-2 to 3 1-4 cents lower compared with 24 hours before.

Spiral Nebulae.

It is now an established fact that the majority of the nebulae known to astronomers are spiral nebulae. Their study is very important, and in particular a knowledge of their spectra is capable of furnishing valuable information. The study of the spectra of nebulae is rendered very difficult by the small intrinsic brightness they possess. Nevertheless, some careful experiments made by Slipher on the nebula in Andromeda render it probable that the nebula has a radial velocity of about 186 miles a second, a result which is distinctly greater than the figures formerly obtained for other nebulae. If this nebula in Andromeda approaches the solar system with this velocity—11,100 miles a minute—it suggests that the new star which appeared near its nucleus in 1885 had been a dark star which was encountered.—Cincinnati Commercial Tribune.

New Wireless Communicate.
Every battleship at sea has its wireless installation, adjusted so that it can send and receive signals and messages to other squadrons at sea or in harbor and to stations ashore. For the purpose of obtaining information as to the whereabouts of the enemy and guarding against surprise, wireless telegraphy is, of course, invaluable, says the Wireless World. A great number of cruisers are sent out ahead and spread a number of miles across. The duty of these ships is to keep a thorough lookout and report to the ship in the battle fleet looking out on their particular wave length. This ship in turn reports by semaphore or Morse lamp to the admiral of the battle fleet. The cruisers are sometimes assisted by torpedo boat destroyers. Now, if thirty of these ships are used it will be readily seen that the area of their vision is enormous, and it would be almost impossible for a fleet to pass unobserved. Immediately any of the ships sight the enemy's squadron they would report at once by wireless, stating the number of ships sighted, with their speed, latitude and longitude, etc. The admiral would then give his orders, also by wireless.—Pearson's Weekly.

Queerest Dolls in the World.

The dollies played with by little Mohammedan children are sadly unique. They are not allowed any features and are, in fact, little more than mere bundles of rags rolled up. Mrs. Penny in "Southern India" recalls the reason for this deficiency. The Moslems believe that any human figure that is made by man will receive life at the last day and will reproach its maker for having brought it into existence without having the power to endow it with human and spiritual privileges. One feels that the prophet might have compromised a little when it came to dolls, especially in view of what was later to happen.

When British rupees were first circulated in India the figure of the sovereign in relief was regarded with distrust. Fortunately for the peace of the merchant the eye was so small as to be almost invisible. Through this loophole the followers of the prophet found a way of escape from the difficulty, deciding that no harm would come in the use of the money.

A Stonehenge Legend.

Friar's Heel is the name given to a large stone at Stonehenge, England. An interesting tale surrounds the placing of this stone in its present upright position. It is related that Geoffrey of Monmouth said that the devil bought some stones of an old woman in Ireland, wrapped them up in withies and took them to Salisbury plain. Before he got to Mount Ambre the withies broke and one of the stones fell into the Avon; the rest were carried to the plain. After the fiend had fixed them in the ground he cried out, "No man will ever find out how these stones came here." A friar replied, "That's more than they can tell," whereupon the fiend threw one of the stones at him and struck him on the head. The stone stuck in the ground and is said to remain there to the present hour.

A Remarkable Prediction.

Manness Cutler of Massachusetts, in a circular in 1871 "booming" the settlement which the New Englanders were about to plant on the Ohio at the mouth of the Muskingum, declared that "the current down the Ohio and the Mississippi for produce and merchandise of all sorts would one day be more crowded than any other streams on earth," which was a remarkable prediction considering that it was made twenty years before Fulton's Clermont was launched in the Hudson, which was the first steamboat in the world ever put in successful operation.

Family Fun.

They had been having a quarrel, and after Mrs. Gilson had spoken the last word, as usual, she felt that perhaps she had overdone the matter, and, picking up the evening paper, began to read little items from it.

"Oh, Henry," she laughed, "Isn't this funny? Here is a man advertising for a silent partner with \$1,000."

"Funny?" growled Gilson. "Yes; it's terribly funny. If he'd married you he'd have been darned glad to get a silent partner even if he didn't have a cent."—Philadelphia Record.

Comprehensive Advice.

It is probable that seldom has better advice been given than in the following condensed rules: Drink less, breathe more; eat less, chew more; ride less, walk more; clothe less, bathe more; worry less, work more; waste less, give more; write less, read more; talk less, think more; preach less, practice more. To follow these is to strive for better health, further popularity and greater success.

Explaining It.
"Robert," said his mother, "what mischief have you been up to now? I can tell by the look in your eyes that you have been naughty."

"Oh," replied Robert, "that's part of the look left over from the last time I was naughty."—Chicago News.

Love's Victim.
"Where did you get that awful indignation?" "My wife tried to win my love through my stomach."—Philadelphia Ledger.

The Spear of Sarcasm.
"The whaling industry is dead." "Yes," replied Miss Cayenne. "Throw the harpoon is now classed as an indoor sport."—Washington Star.

Don't tell your enemy what you think of him; it will worry him lots more to have to guess.—Smart Set.

COMPLEXION COMPLAINTS.

Many a woman seems to think that complexion care means a few moments a day spent on that small surface of skin covering the facial bones, which is a very foolish assumption. Nothing ruins the complexion like a domineering disposition, as temper that knows not how to control itself, a nature that ever seeks and never gives, or a tendency to brooding and discontent. By-and-by—before one is aware of it oneself—the lines of the face, the curves of the mouth, will inevitably betray the innermost thoughts.

Sharp, thin lips, sagging lines about the mouth, a nasty scowl when the face is unconscious of scrutiny, will be the betrayers. Only the face that mirrors a sunny nature, full of love and good will, looks young at thirty and keeps young through the thirties and even through the forties.

But the hygiene of the complexion demands actual physical care as well as a sunny spirit and first comes the care that means watchfulness of the digestion. Plain, wholesome food, not highly seasoned, very little tea and coffee, but plenty of clear, cold water—these are the reliable helpers toward a blooming and clear complexion.

After twenty-five the less sweets the better, so far as the complexion and figure are concerned. Strong acids should be avoided, rich sauces and stimulants of all kinds, as well as gravies. There is nothing better for the complexion than fresh fruit. In winter one can scarcely eat too many oranges, grapefruit and apples. In summer peaches are the fruit of beauty. Five or six a day will do much good and no harm. Berries have a tendency to promote uric acid and rheumatism, and in some cases they cause rash and even eczema of the skin, so they should be partaken of in moderation.

Apples are the complexion food all the year round, and like clear water, they can scarcely be partaken of too generously. Apple sauce, diluted with water, while hot, then allowed to cool and chilled with ice, makes a drink matchless for the skin. After the winter, also, drink gallons of cold water. Three quarts a day is the very least quantity one should swallow.

THE SICK

Miss Carrie Bowers, who has been ill for several days with pneumonia, was taken to the Sanitarium this morning in Criss Bros. ambulance.

Miss Beatrice Martin was operated upon Tuesday morning at her home in South Fifth street, and is doing nicely. Dr. Price and Dr. Hunt were the attending physicians.

Miss Blanche Seigle is able to be out after a sickness of tonsillitis and grip. Joe Kreaeger, driver for the Besaneceny Bros. Furniture store, who was taken very ill Monday, suffered a relapse last evening but is somewhat improved today.

INQUIRY INTO COPPER DEATH IS CONTINUED

While the inquiry into the death of Mrs. E. C. Copper was continued Wednesday, there were no new developments, according to those interested in the case. It was intimated that a statement regarding the developments might be made in a day or two by those concerned in the case. It is claimed that the detective in charge of the case has discovered some interesting information which probably will be presented to the proper authorities.

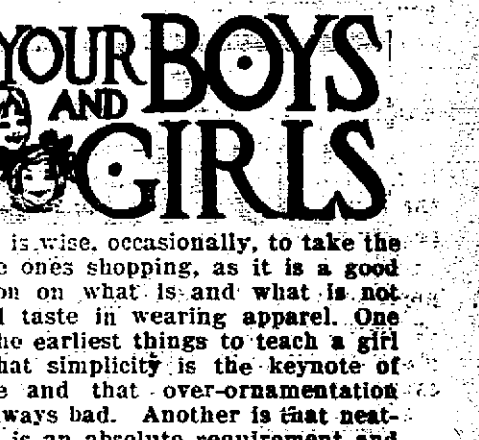

FORMER MAYOR OF BROOKLYN DIED OF PNEUMONIA TODAY

(Associated Press Telegram) New York, March 10.—Charles A. Schieren, formerly mayor of Brooklyn, who has been at death's door of pneumonia for several days, died at his home in Brooklyn today. In an adjoining room, his wife lay ill of the same malady and it is thought she will not live the day out. Mr. Schieren was 73 years old; his wife is the same age. They had been planning to celebrate their golden wedding in November. Mr. Schieren was elected mayor of Brooklyn on the Republican ticket in 1892.

CLOUSE & SCHAUWEKER Agents for The Phipps and Vogue Hats. A large and beautiful line now on display.

It is wise, occasionally, to take the little ones shopping, as it is a good lesson on what is and what is not good taste in wearing apparel. One of the earliest things to teach a girl is that simplicity is the keynote of taste and that over-ornamentation is always bad. Another is that neatness is an absolute requirement and that the whole effect of an otherwise pretty costume may be completely spoiled by untidy shoes or gloves.

Emphasis, too, should be placed on the fact that underclothing should always be fresh and dainty, and that it is in much better taste to have good material made up plainly than to use poor material and attempt to garnish it into elaborateness with cheap laces and gaudy ribbons. Do not give the child too much instruction while shopping, as if too much be told, she is very likely to become confused and really take in very little of what she is hearing.

EVERYDAY ETIQUETTE

What are the proper hours for calling during weekdays? How many cards should an unmarried woman leave when calling on a married woman? were Mildred's questions.

"From three until six o'clock are the proper hours for calling, said her aunt. "She should leave just one of her cards. If she calls frequently on this one hostess, it is not necessary for her to leave a card every time."

rumors that the German Imperial chancellor would announce terms on which Germany was willing to make peace. The market was also affected by assertions that shipping facilities for exporters were getting worse daily, and that the German government was offering to sell its bonds at a discount to obtain at any price. Scarcity of country offerings, however, helped to cause nervous rallies. After opening at 41 cents to 42 cents lower, the market suffered a slight further break and then recovered to a moderate extent. Wheat, on the other hand, was in effect on corn. Purchasing on the part of some of the smaller cash houses checked the advance for a moment, but ranged from 1/2 cent to 1 1/2 cents lower, was followed by a little additional weakness.

New York Stock Exchange.
[ASSOCIATED PRESS TELEGRAM]
New York, Mar. 10.—Standard stocks were inclined to greater heaviness in today's initial trading, leading Southern Pacific and United States Steel making fractional declines. Specialties moved irregularly, gains in motors, American Linseed and Pittsburg Coal. Preferreds fell off by proportionate declines in American Tobacco, Great Northern Ore Certificates, Consolidated Gas and American Express. Traders seemed disposed to wait the result of the New York state bond sale and the Chicago receipts for February before taking a definite stand. Of the entire international list, Canadian Pacific alone showed strength in the London market. Speculative favorites made full recovery by noon, Canadian Pacific gaining a point, and United States Steel, however, with no initiative from either side. Developments bearing upon conditions were mixed, but the further rise in the price of the New York state bonds on the curb augured well for the success of that offering. Missouri Pacific added more of yesterday's gain, in anticipation of a reorganization by the interests now in control. American Tobacco's decline was followed by an adverse annual report. Bonds were heavy, with severe declines in Missouri Pacific, Western Maryland and Iowa Central issues.

RECEPTION GIVEN FOOTBALL TEAM; NEWS FROM UTICA

Last Friday evening a very enjoyable social event occurred at the Disciple church, the occasion being a reception given by two of the Sunday school classes to the 1914-15 football team in particular, and the faculty and high school in general. About 7:15 the crowd began to assemble in the church basement, and until about 8:30 the time was spent in conversation, singing and cheering. The young people were next seated at the tables by ex-Captain Kempton, the football team and members of the faculty being at one table. After a prayer by Rev. Mr. Duhaudway, Rev. Mr. Sutton of the Disciple church in a few brief remarks extended greetings and welcome to all. The refreshments, consisting of ice cream, cake and coffee, were then served to about one hundred people.

The literary part of the program was next given and was as follows. Mr. Kempton acting as toastmaster. A brief talk on athletics by Supt. Smith; remarks by ex-Captain Kempton and Captain-elect Casper; a talk on Advice to an Athlete by Rev. Mr. Duhaudway; a review of the year's athletics and future prospects, by Principal A. G. Clinger; a toast, by Rev. Mr. Thompson of the Disciple Presbyterian church, on the subject "Self-Control," and a song (a poetical reading) by Miss Mary Bricker, one of the high school teachers. Special mention should be made of Mrs. Crumrine and Rev. Mr. Sutton, whose classes were responsible for the reception.

The regular annual inspection of No. 291 F. and A. M. was held last Wednesday evening, Mr. C. C. Iams of Mt. Vernon, district inspector being in charge. Work was given in the E. A. degree. A special has been called for the 10th to confer the F. C. and M. M. degrees.

At the regular meeting of the council last Monday night it was voted again to pave Mechanic, Spring, Mill and Church streets. Work will probably begin on this much needed improvement this spring.

Miss Sophia Trump of the local high school spent Saturday and Sunday with her parents at Circleville.

Quite a number from here attended the temperance rally at Newark last Saturday.

The high school athletic management, under Principal A. G. Clinger, has a full program for the closing months of school. Spring practice in football, tennis, baseball and track are being planned for. With a championship football team of last fall; a strong basketball team, considering the conditions under which they played; with a good outlook for the other phases of athletics this spring, and the county meet to be held here this year, this ought to be the big year for Utica High school.

Mr. J. W. McKelvey of the Farmers' Bank, left with his brother Saturday night for a short visit with friends in Iowa.

Miss Helen Elliott, daughter of David Elliott and Mr. Cary Bell, son of Harrison Bell, were last Wednesday united in marriage at the bride's home. They left Thursday morning for a short trip through the east.

Mrs. A. G. Goad of St. Louisville was a caller in our village Thursday.

Revival services were begun at the Christian church Sunday of this week. The local minister, Rev. Mr. Hofmeister, will be assisted by Evangelist Miller. Everybody invited to attend. There will be plain preaching and good singing.

THE HEADACHE OF NERVOUS EXHAUSTION

A feeling as of a tight band about the head is often felt in addition to the pain of a headache that is caused by nervous exhaustion. The ache is generally in the back of the head, rarely in the forehead, and is often accompanied by dizziness.

The way to stop this sort of headache is to stop the cause of it. Overwork, worry and failure of the blood to properly nourish the nerves are the most common causes. Rest and a tonic for the blood and nerves will cause the headache to disappear in most cases.

Dr. Williams' Pink Pills are an effective tonic for building up the blood and strengthening the nerves. They furnish just the elements that the blood needs to build up the nerves shattered by overwork, worry, overstudy or excesses. You cannot always rest from school, office or household when circumstances require but you can always take a tonic that will maintain the strength of blood and nerves. Dr. Williams' Pink Pills are just the tonic required.

Mention this paper and we will send you a booklet, "Diseases of the Nervous System" free. Address: Dr. Williams' Medicine Co., Schenectady, N. Y. All druggists sell Dr. Williams' Pink Pills.

A representative from St. Luke's Hospital, Cleveland, occupied the M. E. pulpit Sunday morning. He explained the working of the institution and made a plea for its support on the part of the Methodist church.

A general reception was given at the M. E. church Monday evening in honor of Mr. and Mrs. O. H. Permar and family, who expect to leave our village soon. After a short literary program a social hour was spent and refreshments served. A beautiful token was presented to the family as a token of respect and appreciation of the family's services to the community. Mr. and Mrs. Permar will leave Thursday morning for their new home near New Waterford, Columbiana county, Ohio.

Master Robert Farmer was operated on last Thursday at the Newark City Hospital for a tubercular bone in the foot. His sister, Miss Sarah, underwent an operation the same day for appendicitis. These young people are children of Mr. and Mrs. I. N. Farmer south of town.

TURKISH SHELL FELL AT FEET OF FRENCH ADMIRAL

Paris, March 10.—A fragment of a Turkish shell fell yesterday (Tuesday) at the feet of Rear Admiral Guepratte, commander of the French division operating with the allied fleet in the Dardanelles, as he was directing the operations of the battleship Suffren, which had executed a daring maneuver by penetrating the extreme limit of the mine fields, says a Tenedos dispatch to the Petit Parisien. Several shells are reported to have struck the warship, but the correspondent makes no mention of her having been damaged.

After yesterday's operations, the Tenedos dispatch says, the crew of the battleship Guepratte was warmly praised by Vice Admiral Carden, the British commander, for the assistance lent in the reduction of the Dardanelles. Powerful Turkish batteries were silenced by the Guepratte, which was herself struck by two six-inch shells, although the damage done is declared to have been insignificant.

Operations of the French warships have been delayed for a few hours by the necessity of taking aboard coal and ammunition.

FOR TIRED, SWOLLEN SORE FEET

When your feet are tired and sore and you "just can't go another step" apply Hoff's German Liniment, the stainless, greaseless, refreshing-odor preparation. Hoff's German Liniment is made from white emulsion of camphor and other pure, harmless, effective ingredients. The camphor soothes tired muscles and joints and the other penetrating and healing ingredients make the sore tired feet and legs flexible and elastic. Foot powders and alum preparations simply irritate the feet and relieve temporarily. Hoff's German Liniment heals the trouble and makes new feet. Relieves aching corns and bunions.

For nearly two decades Hoff's German Liniment has been unequalled for Rheumatism, Lamé Back, Neuralgia, Cold on the Lungs, Cold in the Head, Bruises, Sprains, Aching Joints and Muscles, Chills, Frost Bites, Chapped and Cracked Hands, Toothache and Headache. It can be taken internally for colds, coughs, croup, etc. Fine for children. Keeps pores closed—something camphorated oil alone will not do—keeps colds out. Sold by all druggists—a quarter pint for a quarter; large family size, 50c. Results absolutely guaranteed or druggist will return your money. Beware of substitutes, which mean disappointment.

Half a Million Matches a Minute

It will take just about a minute to read this advertisement.

While you are reading it, nearly half a million matches will have been struck, burnt and cast aside, in this country alone.

That gives you an idea of the extent to which matches enter into the everyday life of the American people.

Of the hundreds of different brands of matches made and sold in the United States, there is but one best.

It is called the Safe Home Match. It is made by the Diamond Match

Company. It is a safe match for the home.

Safe Home Matches light easily, but not too easily. They are safe—safe and sure.

The sticks are extra long and extra strong. Safety again!

They are non-poisonous. Safety once more.

They cost no more than other brands of matches. As a matter of fact, they cost less, because every Safe Home Match is a match.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, cough, bad, throat, sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills: give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious, "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle. Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

CATHOLIC CLERGY IN MEXICO HAVE BEEN IMPRISONED

(ASSOCIATED PRESS TELEGRAM)
New Orleans, March 10.—Cardinal Gibbons was given a personal report on the conditions in Mexico, as regards the catholic church, it became known today, when late yesterday he received in conference here Archbishop Murray Del Rio, head of the church in the southern republic, who recently came to New Orleans from Vera Cruz. The cardinal did not discuss the conference other than to say the archbishop reported all his clergy had been imprisoned and that the situation was deplorable.

GERMANY NOT TO AGREE TO ITALY FIGHTING AUSTRIA

(ASSOCIATED PRESS TELEGRAM)
Rome via Paris, March 10.—Although declaring that it considers such an agreement impossible, the Idea Nazionale, discussed a report that Germany has agreed with Italy that if Austria refuses territorial concessions desired by Italy, no objections would be offered by Germany to an attack upon her present ally provided Italy did not enter into an alliance with the triple entente powers. The newspaper calls such a plan "folly," and says it would mean a betrayal of Italy.

ANTI-FRATERNITY LAW IS DECLARED CONSTITUTIONAL

(ASSOCIATED PRESS TELEGRAM)
Washington, March 10.—The constitutionality of the Mississippi anti-fraternity law was urged in a brief filed today in the supreme court by attorneys for the University of Mississippi.

The attorneys argue that a state has a right to govern its own institutions and hence it was within the power of the Mississippi legislature to condemn fraternities as conducive to friction in college management and to forbid their existence at a state college.

NEIGHBORHOOD PRAYER MEETINGS

The following topics have been selected for the weekly neighborhood prayer meetings. It is sincerely desired that the list be cut out of the local papers and preserved for reference, so that there shall be a preparation of mind and spirit for the meetings, and thereby cultivating a regular study of the Bible which will become an intensely interesting book in proportion to the time we give to its study.

In some of the neighborhood prayer meetings the attendance has been most encouraging, and marked with earnestness, especially in Division 13, led by Mrs. Workman, division leader. Their attendance for weeks past has been over 20, last week 23.

POOR GERMAN BOY CAME TO NEW YORK; LEFT 25 MILLIONS

(ASSOCIATED PRESS TELEGRAM)
New York, March 10.—Herman Frasch, who came here from Germany a poor boy in 1863, and who died in Paris on May 1, last, left an estate that may be worth \$25,000,000 according to a statement made to the surrogate yesterday by State Comptroller Travers, in asking for a re-appraisal of the estate.

Mr. Frasch was a chemist of the Standard Oil company and president of the Union Sulphur company. He owned 505 of the 2,000 shares of the stock of the latter company. The surrogate was informed that the value of the company's sulphur beds in Louisiana is constantly increasing and that the property was assessed in 1911 at \$10,000,000. The original appraisal of the Frasch estate was \$5,560,573. A re-appraisal was ordered.

3 HIGH SCHOOLS' ANNUAL DEBATE, FRIDAY, MARCH 12

The seventh annual debate in the Triangular Debating league consisting of the Newark, Mt. Vernon and Zanesville High schools, will be held next Friday evening, March 12, in the three cities named above. Each school selects two teams, one on the affirmative, and one on the negative side of the question. The affirmative team debates in the home city, the negative team in one of the other two cities. This year Mt. Vernon comes to Newark, Zanesville goes to Mt. Vernon, Newark goes to Zanesville.

This year the Newark teams are unusually strong and the contests will be the most hotly contested of any of the former debates. Mr. Chalmers Parker, the coach for the Newark teams, has been working assiduously with them for some time and the team from Mt. Vernon and Zanesville will be obliged to "go some" to win the much coveted banners. The two Newark teams are evenly matched. The affirmative team which debates at home consists of Lou Ella Hawkins, Raymond Crawford, and Edward Pearson, with Forest Keckler as alternate. The negative team which goes to Zanesville consists of Robert Swincle, Robert Wilkin and Leland Stevenson, with Helen Peck as alternate.

The question for this year which was chosen by Zanesville and agreed to by the other schools is, "Resolved, That the Federal Government should own and operate the railroads of the United States."

This coming event is one that is looked forward to by all the students of the high school and a great many of the parents and former graduates. There is always a crowded house and we hope this year will be no exception. Already the high school is getting into shape by practicing yells and songs that will tend to inspire the debaters to do their best. Goddard Chase, the cheer leader, is the best the high school has had for many years and he will be on hand to direct the yells while Professor Kopp and his orchestra will lead the singing. If you want to have the best as well as the most profitable time of the year you'll find it at the High school auditorium, Friday evening at 8 o'clock.

TO INVESTIGATE CAUSE OF FATAL MINE EXPLOSION

(ASSOCIATED PRESS TELEGRAM)
Charleston, W. Va., March 10.—A thorough investigation into the cause of the explosion in the Layland mine of the New River and Poughonts Consolidated Coal company, from which 109 bodies have been recovered and 51 miners rescued alive, will be made by the state department of mines. According to Chief Henry, of the department, the mine will probably be sufficiently cleared of falls of slate and rock by Monday, to permit mining experts to carefully examine the workings and determine the origin and cause. The coroner's inquest will likely begin next Wednesday.

Chief Henry praised the rescuers for their work and declared that the miners rescued alive on Saturday, could not have survived ten hours longer had they not been discovered at that time.

Card of Thanks.
We wish to thank the neighbors who were so good and kind during the death of our husband and father and for the beautiful flowers, we also wish to thank the Elks lodge for their beautiful floral offering and the Glassblowers for their beautiful flowers. The Second Presbyterian church and the pastor Rev. Tullis for his many visits and kindness during the sickness and death and the singers who sang those beautiful songs. Many thanks are due Mr. Egan who was so kind and thoughtful and his work was of the highest class. The neighbors were so good and kind that we feel very much indebted to them. We also thank Rev. Kerr from Beverly. Very gratefully we are, Mrs. Alex Morris, Son and Daughters. 11*

The thermometer is getting stuck up, but Jack Frost may give it a call down yet.

Over 1,000,000 acres of land in Oregon are available for 320-acre homesteads.

Luxurious Military Aeroplanes.
The German arrow type of flying machine can compare with nothing so much as an automobile de luxe, says an English journal. It has the strength, the perfection, the reliability, the safety of a superb motorcar. And it has the luxury. On the dashboard before the pilot, in addition to his control gears, there is a nest of drawers containing, among other things, a vacuum flask, chocolate cubes wrapped against the damp in tin foil, a small bottle of brandy in case the aviator should become faint, a petrol sponge for wiping the goggles, a revolver holder, a dispatch case with sharpened pencils of different colors, so that the dispositions of the enemy's troops can be more adequately marked, a map board and maps. Moreover, the exhaust pipe of the engine passes under the floor boards, so that the pilot, who must constantly keep his feet at an angle on the pedals, may have them warmed throughout the flight. The floor, too, sits in a comfortably upholstered club chair.

First Balloon Ascent in America.
The first balloon ascension in America took place in Philadelphia on Jan. 9, 1793. The aeronaut was a Frenchman named Blanchard. He secured the yard of the Walnut street prison as the place from which to make the ascent. Among the many distinguished persons present was George Washington, then president of the United States. The start was made 10:05 o'clock, and as the balloon began to ascend the aeronaut waved the United States flag and the tricolor of France. The voyage lasted forty-six minutes, during which the balloon traveled fifteen miles, descending a little to the eastward of Cooper's Ferry, N. J. Blanchard returned to the city about 6:30 in the evening, and immediately paid his respects to President Washington. Following this ascension, during the year he made a number of others, but owing to lack of public support and insufficient funds of his own, he returned to France sadly disappointed at his success in America.—Philadelphia Press.

A Knight of the Garter.
A knight of the Garter dressed in the regalia is an imposing sight. He wears a blue velvet mantle with a star embroidered on the left breast. His trunk hose, stockings and shoes are white, his hood and surcoat crimson. The garter, of dark blue velvet edged with gold and bearing the motto "Honi soit qui mal y pense" ("Evil to him who evil thinks"), also in gold, is buckled about the left leg below the knee. The heavy golden collar consists of twenty-six pieces, each in the form of a garter, bearing the motto, and from it hangs the "St. George," a badge which represents St. George on horseback, encountering the dragon. The "lesser George" is a smaller badge attached to a blue ribbon worn over the left shoulder. The star of the order consists of eight points, within which is the cross of St. George, encircled by the garter.

Poor Gas.
Some men were riding in the smoket end of a Pullman car recently when one of them referred in a rather uncomplimentary way to the gas supply that was dished up in his home town.

"Yours may be bad enough," reflectively commented a party named Jones, "but I want to say right here that we have the worst gas of any town in the United States."

"That is saying a whole lot," returned the first speaker. "Do you really mean it?"

"You just bet a hundred that I mean it!" was the vigorous rejoinder of Jones. "Every morning when we go to cook breakfast we have to pour kerosene on the gas to start the fire in the gas stove."—Philadelphia Telegraph.

A Tongue Twister.
Do you read by sight or sound? Do you skim the sense or pronounce the words as you go? Inaudibly, but conclusively? There are many readers who read by the ear, and when this writer had written the sentence about Wick (there was an election there)—"Wick is rich in Pictish relics"—he leaped back and tried to whisper it, thinking of the next. "Wick is rich in Pictish relics." Say it three times quickly.—London Mail.

Old Newspapers.
Old newspapers form the basis of most of the boxes in which goods are kept in the furnishing stores. When ground into pulp and treated with certain chemicals they furnish an ideal material for the pasteboard used in the cheapest as well as the more expensive grades of boxes.—Argonaut.

Truth or Fiction?
"Ah, what a difference there is," remarked the cynic wearily, "between courtship and marriage! Courtship is made up of soft nothings—marriage of hard facts."

And he broke the world's record for a sigh.—New York Times.

Best For the Inner Man.
We are very fond of music, literature and art, but when all is said and done nothing makes a stronger appeal to us than something in the nature of a fritter.—Ohio State Journal.

The Anemone.
The anemone, according to mythology, sprang from the blood of Adonis, mingled with the tears which Venus shed over his body.

The saddest thing under the sky is a soul incapable of sadness.—Countess de Gasparin.

In these hard times the fellow who can feather his own nest is a bird.

PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

Stop "dosing" Rheumatism.
It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.
Linger up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

CRUISER

(Continued from Page 1.)
ser, but as the German captain had sealed the lips of his officers, it was not confirmed.

Marine circles were startled when the long slick ship easily distinguished by the lines of a North German liner steamed up the bay and into Hampton Roads. She came into the roads and without any attempt at deception, passed quarantine and then came on to this port, where she anchored.

The auxiliary cruiser Prinz Eitel Friedrich started out on her career as a warship from Tsing-Tau. She formerly was a regular liner of the North German Lloyd. She reached Tsing-Tau shortly after the outbreak of hostilities, and the German marine authorities at that port equipped her with naval guns and turned her into an auxiliary cruiser.

She sailed from Tsing-Tau before the Japanese attacked that port and early in November she was reported of the western coast of South America, where for several months she has been active in the pursuit of British and French shipping. One of her exploits was the sinking early in December of the British steamer Charras off Chile. Japanese cruisers have been described as searching for this German vessel persistently but they never could find her.

The records do not show when she entered the South Atlantic. Had she come through the Straits of Magellan, the prevailing censorship might have prevented news of her movements becoming known. In striving to avoid the straits, she could have come around Cape Horn.

With this German cruiser located in an American port, there remain at large on the high seas outside of German waters only three ships of war flying the imperial flag. These are the Kron Prinz Wilhelm, an auxiliary cruiser last reported off coast Brazil; the Protected cruiser Dresden, last reported, after the battle off the Falkland islands, in Chinese waters, and the cruiser Karlsruhe, last reported as operating in the West Indies. One report said that the Karlsruhe had been successful in reaching home waters.

TO ALL BUYERS OF MILK AND CREAM

The Licking Creamery Company begs to announce that beginning with March and continuing until further notice, it will make a regular monthly award of (2) two-\$1.00 sheets of milk wagon upon each of its retail milk wagon routes to private consumers of milk and cream throughout the city.

These awards will be made on the 15th day of each month.

A duplicate receipt stub from every sheet of tickets sold during the preceding month will be placed in a box from which the stubs to receive awards will be drawn by a disinterested party, each route will be handled separately.

THERE IS BUT ONE CONDITION QUALIFYING THESE AWARDS.

All competitors must have their accounts with The Licking Creamery Company paid in full for the month preceding the one in which any given drawing occurs.

In other words, should a duplicate of one of your ticket receipt stubs be drawn March 15th, it would not receive an award unless your account was paid in full for the month of February.

This is absolutely the only requirement made, thereby characterizing this proposition as being extremely clean cut and liberal.

We hope it will please the public. Watch for the first drawing. Your name may be among the fortunate ones to be announced in the papers on March 16th, following the first drawing.

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and thick with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we won't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustrous and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair. BURKE CASE

HEARD BY COURT OF APPEALS
ON MOTION TO DISMISS THE
ACTION

Case Brought to Compel Plaintiff's
Reinstatement as a Policeman
—Court News.

Judge R. S. Shields, Judge Louis K. Powell and Judge Lewis B. Houck of the Court of Appeals heard the case of the State of Ohio on relation of C. O. Burke vs. Wayne Collier, F. M. Swartz et al., today upon a motion to dismiss the appeal on the ground that the suit is not a chancery case. The court took the motion to dismiss under advisement and announced that a decision on the motion would be rendered next Tuesday. In this case Burke brought the suit in mandamus to compel his reinstatement as a city patrolman.

The city was represented by A. A. Stasel and Mr. Burke by Attorneys L. C. Russell, James R. Fitzgibbon and Phil B. Smythe. The case has been pending in the courts for over a year and a half.

The court heard the arguments of counsel in the case of the Fruit Dispatch Company vs. F. Lisey. The suit is brought to reverse a judgment upon a verdict in the common pleas court in favor of F. Lisey. The suit was brought by the Fruit Dispatch Company to recover upon a shipment of bananas. The defendant, Lisey, claimed that when the bananas arrived here they were in such condition that they were unsalable.

City of Newark vs. C. V. Leedale, a suit to determine the right to a strip of ground in East Newark which has been used as an alley. For trial Wednesday.

Frank J. Rees vs. D. E. Chism, for trial Wednesday morning.

Mutual Benefit Department Order Railway Conductors vs. Mary I. Bland et al. Second motion to dismiss appeal withdrawn. Case assigned for trial Tuesday, next week, subject to other cases on the assignment being tried.

The court of appeals heard the arguments of counsel on a motion to dismiss the appeal in the case of Elissa J. Case vs. Frank Burrell, et al. The suit was brought against the joint Boards of Trustees of Bennington and Hartford Townships in which the plaintiff alleges that he is the owner of certain real estate described in his petition, and says that there was presented to the joint Boards of Trustees a petition asking for the establishment, location and construction of a tile ditch describing the route. Such proceedings were had that in January, 1914, the trustees ordered the ditch constructed as described. Plaintiff says that there was no authority under the law to establish and locate the ditch by the Trustees of the respective Townships, and that the effort to charge him for the construction of the ditch is illegal, and he asks for an injunction to restrain the trustees from further proceeding in the matter, and that upon final hearing the preliminary order of injunction may be made perpetual.

The court took the motion under advisement.

Granville

(Special to Advocate)
Granville, March 10.—Instead of the usual literary program last evening, the Fortnightly club gave a diverting and enjoyable social affair in which the histrionic talents of several of the members were brought out. Mrs. J. M. Swartz was hostess and about fifty ladies were present for the following program: "A Visit to the Doctor," by Misses Annabel Owen and Gertrude Carpenter; "Going on a Visit," Misses Owen, Carpenter and Althea Cook; "Feather Top" (by Hawthorne) Miss Owen, Carpenter, Cook and Master Keith Hammond; A Colored Wedding. Mrs. Alma Tight, groom—Mrs. Fred McCollum bride; Miss Owen, best man; Miss Cook, bridesmaid; Miss Evangeline Davis, flower girl; Mrs. Coons, Mrs. Rohrer, ushers; Miss Carpenter, preacher. During the evening there was a musical program by Mrs. Coons, Mrs. Rohrer, sopranos; Mrs. C. J. Loveless and Miss Hawk, pianists.

Music lovers should not miss the treat in store for them in Mrs. Edward MacDowell's recital-lecture in the Baptist church auditorium, Friday evening, March 12. The press is filled with testimonials of her power over an audience. Her entire program is wonderful in interpretation. Her descriptive pieces are very graphic, and Mrs. MacDowell lives and breathes her husband's work. She modestly claims not to be a real artist, but underesti-

mates her own worth. Her personality is most fascinating and her recital is sure to be full of pleasure and profit to all who attend. Phone Ullman's, 2 rings on 33.

The meeting of the Granville Women's Music club which was to have been held this afternoon, is postponed until tomorrow, on account of the funeral of Rev. John Carmen of Sparta, S. C., which was held this afternoon in the Baptist church. The family has many friends in Granville. Rev. and Mrs. A. S. Carmen of Marietta arrived last evening. Dr. and Mrs. William Carmen of Rochester, N. Y., David Carmen and Mrs. John Carmen with her three children are all in Granville.

Prof. W. A. Chamberlin has been suffering from an attack of the grip. Miss Ellen Little of Norwalk is the guest of Mrs. C. E. Stanton in Broadway.

About twenty Granville people motored to Columbus last night for the recital in Memorial Hall presented under the auspices of the Columbus Women's Music club. Mme. Katherine Goodson, pianist, and Miss Jennie Dutant, soprano, were the artists.

Mrs. J. G. Ewart has as house guest Mrs. Sanderker of Marietta, who came to attend the funeral of her brother, Rev. John Carmen.

OBERGON WAS NOT RESPONSIBLE FOR AWFUL CONDITIONS

Statement Prepared for His Attorney in Vera Cruz, to Accompany Formal Statement.

(Associated Press Telegram)
Vera Cruz, March 10.—A declaration that General Obregon had acted in good faith in his efforts to relieve the sufferings of the poor in Mexico City and a denial of charges that he had prevented the distribution of food supplies or otherwise acted in a way calculated to complicate the situation is the substance of a statement prepared by Alberto J. Pani, head of the National railways for Charles A. Douglas, General Carranza's Washington attorney, who is now here. It was understood that this statement is included in one which is to be delivered to the state department at Washington.

Pani asserted that General Obregon was idolized by the poor of Mexico City and that conditions there which have aroused protests were due, not to him, but to the persistent and adroit opposition of wealthy residents instituted with the object of bringing Obregon and the Constitutional cause into disrepute.

Pani is preparing a detailed statement of the quantity of food supplies which has been shipped into Mexico City, together with what has been shipped out, and by whom, in an effort to prove untrue charges that Obregon has deliberately attempted to drive the people of the city to desperation using hunger as a means. He will submit also a statement, showing the exact amount of funds collected and the use to which this money was put. The funds on hand are said to have been turned over to Jose Peralt, cashier of the Bank of San Luis Potosi, who, Pani asserts, was the choice both of the poor and the contributors.

APPEAL FOR FOOD FOR MEXICANS WHO ARE NOW STARVING.

(Associated Press Telegram)
Washington, March 10.—The Mexican Red Cross today appealed to the American Red Cross through Secretary Bryan for food for the starving populace in Mexico City. The appeal said the famine in the Mexican capital was rapidly growing worse. Secretary Bryan said the state department would co-operate with the Red Cross as far as possible.

BOWLING TOURNAMENT WILL OPEN IN PEORIA

county, predicted the bill would get not more than 10 affirmative votes. Supporters of the bill changed their tactics shortly before the measure came to final vote this afternoon, and prepared to offer compromise.

Senator Garver, of Miami, author of the bill, prepared an amendment to his own bill, providing only that directors of a conservancy district be elected by counties instead of appointed by the conservancy court, and that owner of lands liable to flooding because of the building of dams or dry reservoirs, dictate whether they shall sell their land outright to the conservancy directors, or give a long time lease.

The amendment would permit the building of dams, for which the Vonderheide act provides, but which was an object of violent attack in the Garver bill as drawn originally. Supporters of the Garver bill asserted they expected to gain several votes by their compromise amendment. Senator Gilmore of Preble county, representing the Dayton anti-amendment interests, predicted that the Garver bill would be defeated overwhelmingly, even with the amendments.

Senators who are fighting the Garver bill, reported early this afternoon they had been approached by proponents of the measure, with the suggestion that they lead a movement to postpone indefinitely the Garver bill. They declined, saying they want to kill the bill immediately. It was reported that friends of the Garver bill may ask to have it postponed indefinitely with a view to offering a substitute bill at some later date.

It was said shortly before the sen-

ate convened this afternoon Senator Garver was considering offering only one amendment, to provide for election of conservancy directors by counties, omitting the provision for change to allow land owners to say whether they would sell or lease.

Nurses today lost their fight for a system of state examination and registration of members of their profession when the house committee on colleges and universities recommended indefinite postponement of the Sprague bill, providing this. Efforts were made to have Representative Sprague of Scioto, author of the nurses bill, to lead a fight on the floor of the house to take the bill from the committee before it is reported out.

Five bills were recommended for passage by the senate judiciary committee today. They are as follows: Archer, forbidding probate courts in certain counties, including Licking, to grant divorces; Vollenweider, allowing county commissioners to dictate kinds of bonds to be given by county treasurers; Collins, permitting executors to sell notes secured by real estate mortgages at face value with accrued interests; Collins, requiring receivers to call a meeting of creditors within 30 days after his appointment; Meyers, authorizing the court to order what judgment shall be entered when a verdict is special.

Farmers wagons abroad on highways after dark will not be compelled to carry a light, as the Mooney senate bill provides, for the house committee on agriculture today smothered the measure by postponing indefinitely consideration of it. The bill would have made every vehicle in the state carry a light after dark.

The committee on agriculture also postponed indefinitely the Nieding bill, permitting state aid for more

than two agricultural fairs in a county.

Agreement on the appropriation bill was reached today by the conference committee of the house and senate and a compromise on amendments made to the bill in the senate were to be reported this afternoon. Both houses then are expected to pass the bill, and make available funds for payment of state officials and employees, whose salaries should have been paid nearly two weeks ago.

OTHER MURDERS MAY BE CHARGED TO TWO SUSPECTS

(Associated Press Telegram)
New Britain, Conn., March 10.—In an effort to determine the identity of Peter Krakus, alias Peter Melba, and Bernard Montvid, alias Charles Moras, held in Wilmington, Del., for the killing of Patrolman Francis Tierney and the shooting of three other officers and two citizens last Saturday, Detective Bamforth of this city has gone to Wilmington.

It is the opinion of the police here that Krakus knows something about the murder of Rev. Joseph Zebis, pastor of the Lithuanian church, and his housekeeper, Eva Gilmanatis, on February 8. The Wilmington police sent word that on both men were found evidences that they were in New Britain about the time of the murders, and the Waterbury police assert that they have information showing that Montvid was in that city two days after the murder. They do not recognize Krakus. On the men were found drawback slips for railroad fares paid between New Britain and Waterbury and between other New England cities.
